5

(ii) Whenever it comes to the knowledge of the Chief Police Officer that any place is fitted or provided with any of the means or contrivances mentioned in this section in such a way as to lead to a presumption that the place is used or intended to be used for the purposes of a common gaming house, it shall be the duty of the Chief Police Officer to cause notice thereof to be served on the owner of such place as well as on the occupier thereof; and, if any such notice cannot be personally served, it may be served by being affixed to the principal outer door or any outer door or window or any conspicuous part of the place.

Moreover if any books, documents or papers which are in evidence or liable to inspection in any civil or criminal proceeding whatsoever contain any entry in which any informer is named or described or which might lead to his discovery, the Court or Magistrate shall cause all such passages to be concealed from view or to be obliterated so far as may be necessary to protect the informer from discovery, but no further. But if on the trial of any offence under this Enactment the Magistrate after full enquiry into the case believes that the informer wilfully made in his information a material statement which he knew or believed to be false or did not believe to be true, or if in any other proceeding the Court or Magistrate is of opinion that justice cannot be fully done between the parties thereto without the discovery of the informer, it shall be lawful for the Court or Magistrate to require the production of the original information and to permit enquiry and require full disclosure concerning the informer.

ment Enact-
ment, 1900,"

18. All offences against this Enactment shall be tried summarily by a Magistrate.

NOTICE.

THE IMPERIAL INSTITUTE.

SCIENTIFIC AND TECHNICAL DEPARTMENT.

His Excellency the High Commissioner has received a despatch from the Right Hon'ble the Secretary of State for the Colonies calling attention to the advantages offered by the Imperial Institute to merchants, planters and others who may wish to have samples submitted to scientific experts for opinion as to their commercial value, etc. The following extracts from a memorandum published by the authorities of the Imperial Institute will give an idea of the work undertaken and carried on there :

"The Scientific and Technical Department of the Institute has been established to acquire information by special enquiries and by experimental research, technical trials and commercial valuation, regarding new or little known natural or manufactured products of the various Colonies and Dependencies of the British Empire and of foreign countries, and also regarding known products procurable from new sources, and local products of manufacture which it is desired to export. This work is carried out with a view to the creation of new openings in trade, or the promotion of industrial developments."

2. In an extensive and well-equipped series of Research Laboratories, a numerous staff of skilled chemists carry out the investigation of the chemical constitution and properties of new dye-stuffs, tanning materials, seeds and food-stuffs, oils, gums and resins, fibres, timbers, medicinal plants and products, with a view to their commercial utilisation. Whenever necessary these materials are submitted to special scientific experts by whom they are made the subject of particular investigation or practical tests. Reports are also obtained from technical or trade experts in regard to the probable commercial or industrial value of any such products.

3. The Federated Malay States Government has undertaken to grant a sum of £100 a year for five years to the Department with a view to the careful investigation and commercial development of the mineral resources of the States.

The Government Geologist is collecting specimens for chemical examination and, after analysis, the Imperial Institute, which is in very complete touch with the principal manufacturing and other industries of the United Kingdom, will bring the specimens before manufacturers and others for trial with a view to their commercial development.

It is expected that this action will do much to help in finding a market for new products and developing the markets for those already exploited.

Planters and residents in the Federated Malay States are at liberty to send (through the Resident-General) specimens of little known or new vegetable or mineral products of the Federated Malay States for examination at the Imperial Institute by whom a report will be made through the Resident-General. Specimens should, if possible, consist of a few pounds of the material and should be accompanied by full information, especially respecting the precise locality in which the material is found and the extent of its occurrence.

Attention may also be drawn to the "Bulletin of the Imperial Institute," published quarterly, which contains records of the investigations conducted at the Imperial Institute and special articles on tropical agriculture and the commercial and industrial uses of vegetable and mineral products. Copies of this publication, price 4s. 6d. per annum (including postage), may be ordered through Messrs. Kelly and Walsh, of Singapore.

Special sample rooms have been arranged at the Imperial Institute for the information of enquirers, in which materials which have been investigated and valued are available for reference.

Important products are also shown in the Malaya Court in the Public Galleries of the Imperial Institute.

Communications should be addressed to the Director, Imperial Institute, South Kensington, London, S.W.

Towkay FOO CHOO CHOON ,,
Towkay LEONG FEE ,,
Towkay CHUNG THYE PHIN.

The Council met at 11 a.m.

1. "The Succession to Land Repeal Enactment, 1907," was again considered together with a letter from the Federal Secretary, stating that the Enactment had been repealed in Negri Sembilan and Pahang and did not exist in Selangor. The Council relies on the statement in the letter that, if it were found necessary later on to introduce an Enactment dealing with personal effects, such an Enactment could then be introduced. The Enactment is passed and numbered 1 of 1907.

2. An Enactment to provide for the Suppression of Gaming is introduced by the British Resident and discussed. Several Members of the Council enquire whether it is intended to use this Enactment to secure the immediate abolition of gambling.

The British Resident states that this is not the intention, but that the Enactment foreshadows the ultimate abolition of the present system of licensed gambling which would bring the Federated Malay States' policy on this subject into line with that of the Colony of the Straits Settlements. The Enactment is passed and numbered 2 of 1907.

3. An Enactment to amend the "Praedial Produce Protection Enactment, 1898," is introduced by the British Resident, who explains that the Enactment is intended to protect the rubber industry.

Mr. Maxwell points out that the Enactment should specifically make mention of rubber stumps and rubber seedlings.

It is consequently decided to refer the Enactment back to the Resident-General.

4. An Enactment to provide for the Licensing of Appraisers is introduced by the British Resident and explained. The Enactment is discussed and the Orang Kaya Kaya Sri Adika Raja states that, in his opinion, purchasers of property might be left to look after their own interests. He presumes that persons who employ an appraiser select an appraiser whom they believe they can trust. Mr. Maxwell follows in support and recalls the legal maxim "Caveat emptor." He hopes that, if this Enactment is passed, no monopoly will be constituted under it by limiting the number of licenses to value or appraise property or interest.

The views of the Members of Council are taken separately, and it is found that the Council believes the Enactment to be well intentioned, but thinks it unnecessary.

His Highness the Sultan, however, expresses himself as greatly in favour of the Enactment. He believes that it will show the European investor that this country is careful for his interest and is desirous of maintaining a good reputation amongst persons who are willing to place their money in ventures in the Federated Malay States. He urges the Council to adopt this view.

Raja Chulan and the Orang Kaya Mentri observe that this Enactment is likely to press hardly on poor people, as its provisions are very sweeping.

His Highness the Sultan suggests that this view might be met by arranging for a \$2,000 limit of minimum value.

It is decided to forward the views of the Council to the Resident-General.

5. At the request of the British Resident, Raja Chulan reads a Malay Circular issued by the Secretary to Resident on the subject of Tamil coolies squatting and building hovels in Malay kampongs. The circular points out that the habits and customs of Tamils and Malays are radically different, and that arrangements have now been made in Ipoh for a "kampong kling," where Tamils may live together.

The British Resident explains the undesirable state of things which he saw in certain Malay kampongs in Ipoh, and he states that he caused this circular to be issued by way of advice to the Malay population.

The Council expresses itself as in accord with the circular.

6. Applications to be allowed to mine agricultural lands are considered and approved as follows :

7. The British Resident reads a Malay translation of a letter to the Secretary to Resident from a former Senior Magistrate, Perak, Mr. Innes, on the subject of the expediency of the introduction of a law to deal with the ownership of the property of Muhammadans as affected by marriage, divorce and intestacy.

His Highness the Sultan gives a statement of Muhammadan law and Malay custom relating to this subject and cites cases which have been decided before him.

The Council unanimously approves the view of Mr. Innes that, though the Courts when deciding claims to property in cases of intestacy and divorce must depend on the Kathis for expert opinion on points of Muhammadan law, no Kathi should ever be allowed to make partitions of property or to decide what actual property any particular proportion includes for this would mean deciding questions of fact as well as declaring the religious law.

The Council declares and orders to be recorded that the custom of the Malays of Perak in the matter of dividing up property after divorce when such property has been acquired by the parties or one of them during marriage is to adopt the proportion of two shares to the man and one share to the woman, and that gifts between married persons are irrevocable, either during marriage or after divorce. The Council further records its desire that the Courts should call in the Kathis as advisers on principle in cases of these kinds.

8. The British Resident informs the Council that the pay of the Police Force has been recently revised, and that the Malay members of the Force now receive the same pay as the Indian.

9. The British Resident announces to the Council that His Excellency the High Commissioner has approved the revival of the office of Raja Bendahara and the appointment of Raja Abdul Jalil bin Sultan Idris, now Raja di Hilir, to the post and the appointment of Wan Hussein bin Wan Muhammad Arif, brother of the late Orang Kaya Temenggong, Wan Hasan, to the vacant post of Orang Kaya Temenggong.

His Highness the Sultan informs the Council that these two officers will be installed with the ceremonies proper to the occasion at 2.30 p.m. on Monday, the 25th February, at the Astana in Kuala Kangsar, and he invites the attendance of the Members of Council.

In this connection His Highness the Sultan explains to the Council that, when he last met His Excellency the High Commissioner, it had been agreed between them that the appointment of a Raja Muda should stand over. His Highness states that he had pointed out to His Excellency that there had long been a Raja Muda, but no Raja Bendahara, and that it was not impracticable to continue without a Raja Muda if there were a Raja Bendahara. He adds that the office of Raja Bendahara was a very high office and that it had been too long in abeyance.

The Council records its satisfaction with the appointments announced by the British Resident and especially welcomes the revival of the ancient office of Raja Bendahara.

10. The Council decides to issue to the Penghulus a digest of local laws as now supplied to the Police, compiled by Mr. Conlay.

11. The British Resident describes the progress made with the land and the buildings intended for the Malay Residential School. He reads a letter from Captain H. L. Talbot and proposes to institute a scholarship at this school in memory of Mr. A. Butler and Mr. D. H. Wise.

His Highness the Sultan welcomes this suggestion and causes a subscription list to be started immediately by circulating it at the table when the various Members of Council put down the amounts they are ready to subscribe.

12. The British Resident states that he would have liked to have taken the views of the Chinese members as to whether in view of the present anti-opium movement, Section 3 (b) of the Chandu Shops Enactment, could be strictly and universally enforced. This section provides for the licensing of all persons retailing chandu, and he would have liked to have known whether the Chinese members are in favour of enforcing it against mining advancers, naichiang headmen and other persons.

It is considered that, as there is only one Chinese member present, the question cannot be settled.

13. The British Resident reads to the Council a letter from the Federal Secretary, stating that attention has been drawn to the cumbrous nature of the procedure required for the separate registration of patents in each of the four States in accordance with the several Enactments, and stating that a suggestion has been made to simplify the procedure by transferring to the Resident-General the various powers of the Sultans in Council or their Residents as defined by the existing Inventions Enactment.

The Council considers this proposal.

The British Resident states that, so long ago as October, 1905, he had enquired of the Resident-General whether the laws relating to inventions in the various States of the Federation could be amended with a view to abolishing the present cumbrous procedure.

Mr. Maxwell points out that, if any amendment of the law is made, the opportunity should be taken to insert a provision that the word "inventor" should include "assigns."

His Highness the Sultan thinks the idea a good one and has no objection whatever to delegating to the Resident-General the powers now conferred upon himself.

The Council expresses itself as ready to consider a draft of any Enactment proposed, as it has had for some years considerable experience of granting exclusive privileges.

14. The British Resident announces to the Council the approaching visit to Singapore of Their Royal Highnesses the Duke and Duchess of Connaught.

His Highness the Sultan informs the Council that he has arranged to go to Singapore on this occasion to meet the Duke of Connaught, and that he will send his mounted Body-guard to be His Royal Highness' escort.

15. Bakar bin Muhammad Saleh, a criminal lunatic, detained during the pleasure of His Highness the Sultan, is ordered to be released if the medical authorities in Selangor still consider him sane.

16. The petition of Messrs. Christie and Lai Tet Loke for a grant of exclusive privileges in respect of an invention for an approved puddler is again considered.

The British Resident states that he has consulted Mr. Leonard Wray on the subject, as it has been so strongly asserted that the invention is not new. Mr. Wray had suggested that the case for the inventors and the objection thereto should be enquired into by some officer whose conclusions could be laid before Council, and the British Resident, therefore, suggests Mr. L. M. Woodward with two Assessors.

Mr. Maxwell disagrees and shows a diagram of the crickboom trommel, which machine, he says, is universally used and corresponds with the specification of this invention. He would prefer to throw out the application altogether.

Finally, it is decided to refer the petition and specification to Mr. Woodward with Messrs. Trump and Vanrenen as Assessors.

17. It is decided to ask the District Officer, Larut and Krian, to report six months hence on Muhammad bin Aman, Penghulu of Tanjong Piandang, as to whose use as a Penghulu there are doubts.

18. It is decided that Raja Ismail, lately Penghulu of Kampar, should draw a pension of \$210 a year, for which he is eligible.

19. The following Assistant Penghuluships are filled as under :

KOTA LAMA KANAN.—Wan Abdul Jalil bin Wan Husin, Customs Clerk, Tanjong Piandang, on the scheme pay, with one increment, which makes up the pay to his present salary ;

PARIT BUNTAR.—Haji Muhammad Tahir bin Panglima Prang Kiri, now Assistant Penghulu, Ulu Bernam, on his present pay ;

KAMPONG BUAIA.—Ngah Ali bin Uda Omar, now a Process Server in Ipoh, on the scheme pay ;

RABAN.—Mohamudin bin Pakeh Abdulrahman, now a Process Server in Selama, on the scheme pay ;

ULU BERNAM.—Alang Mamat bin Wahap on probation.

20. Muhammad Bidin bin Muhammad Basir is appointed to succeed Haji Muhammad Tahir, deceased, as Penghulu of Sungei Durian in Lower Perak, on the scheme pay, with effect from the 1st of January, 1907.

Usman bin Panglima Prang Kanan, Muhammad Unus, is appointed to be Assistant Penghulu, Hutan Melintang, on the scheme pay on probation.

21. It is decided that a Kuasa shall issue to Haji Muhammad Yasim, Assistant Penghulu at Likir.

22. The conduct of Indut bin Abdul Latif, Penghulu of Kota Lama Kanan, District of Kuala Kangsar, in connection with the alienation of a valuable piece of mining land for agricultural purposes, is explained by the British Resident and adversely criticised by the Council. It is noted that this is the second case of the kind in which this Penghulu has been concerned. It is, however, decided to warn him only as in the view of the Council he may not have been alone to blame.

23. The Council notes that Syed Mashor, Penghulu of Teja, District of Kinta, has paid the debts alluded to in paragraph 43 of the Minutes of the Meeting of the 15th October, 1906.

24. Class III of the Penghulus' Scheme is partly discussed, and it is decided to place the Mukims of Asam Kumbang and Kamunting in Class II and to reduce the Mukim of Ulu Selama to Class III in place thereof. This will not affect the salary of the present Penghulu of Ulu Selama, but it will raise the salary of the present Penghulu of Asam Kumbang and Kamunting to \$480, being the starting pay of the scheme.

The Council adjourns at 4.45 p.m.

SATURDAY, 19TH JANUARY, 1907.

The Council meets at 11 a.m.

25. The Council considers the recent conduct of Muhammad Noh, Datoh Sri Lela Paduka.

The British Resident reads a letter from the Acting District Officer, Kuala Kangsar.

His Highness the Sultan is of opinion that the Datoh should retire on a pension of \$600 a year.

26. The Council considers a report from the District Officer, Larut and Krian, on Haji Muhammad Saman, Penghulu of Ulu Kurau.

Raja Chulan, the Orang Kaya Mentri and the Orang Kaya Kaya Stia Bijaya di Raja, who have read the papers in connection with the case, recommend that a letter be written to this Penghulu warning him, and it is decided to do this.

27. The following contributions to cost of erecting mosques are recommended:

For Sungei Tiram ...	...	...	...	...	\$ 200
„ Raban ...	...	...	...	...	250
„ Ipoh ...	...	...	...	...	2,000
„ Sungei Siput ...	...	...	...	...	150
„ Bangul Berlimbing ...	...	...	...	...	175

It is also decided that \$300 should be lent, without interest, to the Trustees of the Taiping Mosque.

The Council approves the following as Trustees for the Malay Mosque at Ipoh:

The Assistant District Officer, Ipoh, or officer acting;
 Che Lop Abdulrahman;
 Che Mahmud bin Muhammad Taib;
 Haji Yusuf bin Rahmad;
 Muhammad Said bin Haji Mat Saman.

28. Syed Musa is granted \$25 in recognition of his work as Assistant Kathi, Kuala Kangsar.

29. A letter from the District Officer, Upper Perak, is read, stating that the Chief Kathi has recently disallowed music at Malay weddings as contrary to Muhammadan law, and that he had compelled an Upper Perak Malay to go to Kuala Kangsar in order to answer a charge of permitting music at a wedding in his family.

The Acting Secretary to Resident observes that any case of the kind should have been tried by the Assistant Kathi on the spot.

The Orang Kaya Kaya Sri Adika Raja says that, if the present practice is wrong, a pronouncement to that effect should issue from His Highness the Sultan as the custom of having music at Malay weddings was an old custom.

His Highness the Sultan states that, according to the strict religious law, music is not permissible at weddings, but it had for long been a common practice for music to be permitted at weddings in great or noble families, but not, however, at the weddings of "raiats." He is aware that music and entertainments of all kinds at weddings are leading people into expense and extravagance and, as they are against the ordinances of the Muhammadan religion, he is the more bound to discountenance them. As regards this particular case, he will summon the Kathi and warn him not to issue notices of this kind without proper authority. A claim for \$25 expenses forwarded through the District Officer, Upper Perak, is disallowed.

It is decided that the Secretary to Resident should write to the Kathi.

30. The Council considers a Malay Circular issued by the Resident, advising the Penghulus to be more particular in adhering to the Malay costume.

His Highness the Sultan says that he entirely agrees with the principle of the circular. He explains the various styles of Malay costume and describes the old-fashioned costume of the Malays.

31. In response to an enquiry from the Resident-General the Council recommends that the publication of the *Warta Melayu* should be discontinued.

32. The Council considers a list of persons to whom free passes on the railway may be granted and approves it.

33. A gratuity of \$165 to Muhammad Saleh, lately Bentara to the Raja Muda, is approved.

34. The Orang Kaya Kaya Sri Adika Raja having asked to be relieved of work in connection with Kuala Kangsar Land Office, it is decided to seek the approval of the Resident-General to the Resident of Selangor being asked to allow Yeop Abdul Shukor to replace the Datoh Sri Maharaja Lela in the Krian Land Office at a salary of \$1,200 a year, and to bring the latter officer to Kuala Kangsar on the same pay he now draws in Krian.

35. The Raja Bendahara says that he would like before the Council rises to make some acknowledgment of his gratitude to His Highness the Sultan, the British Resident and the Members of Council on their having obtained his appointment to his present office. He wishes to thank the Resident-General and the High Commissioner for having acceded to the request of the Council. He traces his career as a Malay Officer during the last ten years and says that, though he is unable fully to express his gratitude in fitting language, he hopes that they will believe that he is not ungrateful, and that he will try to justify his fitness for the high office to which he has been called.

The British Resident expresses his personal satisfaction that the office has been filled by the appointment of Raja Abdul Jalil, and thus revived after being over thirty years in abeyance. He hopes that some more of the vacant offices will be filled in the near future, for he believes the Malay population will be benefited by having hereditary chiefs to approach when necessary.

The Council adjourns at 2.45 p.m. *sine die*.

Should either party desire to determine the contract at the end of that period, and give the other party six months' notice in writing of such desire, then on the expiration of the said period of six months the contract would *ipso facto* terminate. If not terminated, the contract would continue in force until the expiration of a notice of like duration given by either party at any time.

7. All Government Inspectors and officers of the Indian Immigration Department and all officers of the Post Office, when travelling on duty, to be carried free of charge.

8. The Company would be called upon to carry all mails the Postmaster-General of the Colony might require it from time to time or at any time to convey, between the Straits Settlements and Southern India, or *vice versa*, or between any ports from which the Company's steamers start, or at which they call or arrive, under the provisions of the contract or for the purposes of the Company.

The services of the crew to be from time to time given for the conveyance of the mails between the mail room and the sorting room or rooms, and *vice versa*.

12. (a) In the event of the mails from Singapore and Penang missing the mail train which connects at Bombay with the homeward P. & O. mail packet through default on the part of the Company other than in consequence of *force majeure*, the Company would be required to forward such mails by the quickest available means to Europe, and to pay any charges in respect thereof, and also to pay to the Government of the Straits Settlements a penalty not exceeding \$400 for every such instance of late arrival.

(b) In the event of the late arrival at Singapore of the outward mail by default of the tendering Company other than in consequence of *force majeure*, the Company would be required to pay to the Government of the Straits Settlements \$60 for every period of six hours or fraction of six hours' late arrival, subject to a maximum of \$400.

13. The Superintendent of the Straits Settlements Emigration Dépôt at the port of embarkation would be empowered to detain the mail steamer for a period not exceeding 24 hours, in which case the time of arrival at Singapore would be extended by such an interval as the Company might prove to be reasonable, having regard to the delay caused by the detention.

1. An Enactment to provide for the engagement of members of the Malay States Guides Regiment, and for the discipline of the said Regiment, is introduced by the British Resident and passed, becoming Enactment No. 12 of 1907.

2. In connection with the dismissal of Haji Muhammad Saman bin Haji Muhammad Yasin, Penghulu, Ulu Kurau, the following promotions are approved :

- (a) Raja Chik bin Raja Haji Yahya, Penghulu, Assam Kumbang and Kamunting, to be Penghulu, Ulu Kurau, Class I, on a salary of \$720 per annum ;
- (b) Raja Shabudin bin Raja Dagang, Penghulu, Trong, to be Penghulu, Assam Kumbang and Kamunting, Class II, on a salary of \$480 per annum ;
- (c) Yope Ahmad, Assistant Penghulu, Bota, to be Penghulu, Trong, Class III, on a salary of \$240 per annum ;
- (d) Osman bin Panglima Prang Kanan, Assistant Penghulu, Utan Melintang, to be Assistant Penghulu, Bota, on a salary of \$180 per annum ;
- (e) Mat Nawi bin Nurdin, Assistant Penghulu, Telok Bahru, to be Assistant Penghulu, Utan Melintang, on a salary of \$180 per annum, with the 10 per cent. allowance, as he now draws it.

Samsudin bin Muhammad Sharif is selected as Assistant Penghulu, Telok Bahru, on a salary of \$180 per annum.

3. The application of Raja Mahdi bin Raja Alang Sleman, Penghulu, Senggang (salary \$540 per annum), to be allowed to retire on pension, is, in view of his ill-health, approved. Kulup Muhammad, Assistant Penghulu, Kuala Kenas, is promoted to be Penghulu, Senggang, Class II, on a salary of \$480 per annum ; and Abdul Halik, Process Server, Land Office, Krian, is appointed Assistant Penghulu, Kuala Kenas, salary \$180 per annum.

4. Six months' leave to Abdul Hamid bin Amir Ahmad, Penghulu, Bruas, is approved on the ground of ill-health. If at the end of that time he is sufficiently recovered to resume duty as a Penghulu, another appointment will be found for him. In this connection the following arrangements are sanctioned :

- (a) Ahmad bin Muhammad Taib, Penghulu, Gopeng, to be Penghulu, Bruas, Class II, on a salary of \$450 per annum;
- (b) Lajim bin Yahya, Assistant Penghulu, Sungei Raia, to be Penghulu, Gopeng, Class III, salary \$240 per annum;
- (c) Muhammad Abas bin Mat Aris, Assistant Penghulu, Chanderiang, to be Assistant Penghulu, Sungei Raia, salary \$180 per annum, with the 10 per cent. allowance, as he now draws it.

Ahmad bin Haji Salleh Udin is selected as Assistant Penghulu, Chanderiang, on a salary of \$180 per annum.

5. The conduct of Anjang Abdullah bin Datoh Sagor, Penghulu, Pasir Salak and Kampong Gajah, is discussed. It is decided that a letter be written to the Penghulu, warning him to exercise more of the authority of a Penghulu, and to take a greater interest in the welfare of his mukims. A report on this subject is to be called for from the Assistant District Officer, Lower Perak, at the end of the next padi harvest, and submitted for the consideration of Council.

6. It is agreed that the appointment of an Assistant Penghulu, Ipoh, is necessary this year. If the recommendation is approved, the Penghulu should select a suitable Assistant, with salary at the rate of \$180 per annum, in accordance with the Scheme.

7. An application from Ismail bin Yusuf, Penghulu of Kencering and Grit, for an increase of salary is not sanctioned.

8. The salary of Muhammad Isa bin Haji Abubakar, Penghulu, Bota, who draws \$360 per annum, with the 10 per cent. allowance, is increased by one increment of \$60, in accordance with the Scheme, as from the 1st January, 1907, on the ground of long service. The 10 per cent. allowance to be abolished.

9. The appointment of Sleman bin Panduk Akhat, who was on six months' probation as Penghulu, Sungei Trap, is confirmed.

10. The British Resident explains to the Council that he has given instructions for the establishment of a Malay Settlement at or near Kampar. The Malays have been pushed out there, and he wishes to make a tract of country "wakaf" for them. The matter is now in the hands of the District Officer, Kinta. The British Resident points out that it will be necessary to appoint a strong man as Penghulu, in succession to Raja Ngah Abubakar recently promoted to be Malay Magistrate, Lenggong. The candidate selected should be a Second Class Magistrate. After some discussion, the Council approves the appointment of Raja Johor, Settlement Officer, to be Penghulu, Kampar, Special Class, on six months' probation, with salary at the rate of \$960 per annum.

11. The grant of six months' leave to Indut bin Abdul Latif, Penghulu, Kota Lama Kanan, is approved, with effect from the middle of August, 1907. The Assistant Penghulu, Wan Abdul Jalil bin Wan Husin, is appointed to act as Penghulu during the leave.

12. The British Resident states that a satisfactory report on Indut's conduct has been received from the District Officer, Kuala Kangsar. He is, therefore, permitted to draw the increment for which he is eligible, as from the 1st January, 1907, bringing his salary up to \$600 per annum.

13. A letter is read from the District Officer, Lower Perak, requesting that provision may be made for three Ketuahships for foreign settlers in the coast mukims, at a salary of \$10 per mensem each. A Javanese Ketuah would be stationed in the Bagan Datoh mukim, another at Sungei Simun in the mukim of Utan Melintang, and a Malay Ketuah at Pasir Blanda in Lekir mukim. This proposal is recommended by the Council.

14. The question of remission of rent to "Ketuah Parit" on land surrounding their houses, which was discussed at the Council Meeting of the 15th October, 1906, is again brought up. It is explained that they perform more or less the duties of Assistant Penghulus, that Krian is the only district affected, and that the loss in rents will only amount to about \$150 a year. It is decided that rent be remitted on land held by "Ketuah Parit" in Krian up to a maximum of 5 acres each.

15. A petition from Haji Meriam, daughter of the late Ex-Laxamana and widow of the late Ex-Shahbandar of Perak, for 100 acres of mining land in Kinta or 300 acres in Batang Padang, free of premium, is considered. The request is not approved.

16. An application for grant of mining land on special terms made by Che Puan Muda, widow of the late Raja Muda, is discussed. It is decided that she can have a grant on the usual terms, as the special allowance already given is deemed sufficient to meet her case.

17. A casual allowance of \$50 per annum to Datoh Sa' Indera Bongsu Kanda Abdul Samat, Ex-Penghulu of Bota, is recommended. His application for a monthly allowance, as one of the Orang Besar Anambas, is refused.

18. A casual allowance of \$50 per annum is recommended for Muhammad Salleh, Bentara to the late Raja Muda.

19. An application from Haji Muhammad Yusuf, Assistant Kathi, Taiping, for an increase of salary is refused.

20. A letter from Raja Chik, Penghulu of Assam Kumbang, and others is read, praying that Raja Muhammad Hanafiah, Assistant Kathi, Parit, may be appointed Imam Paduka Tuan, or be given a post as Penghulu in Class II. His Highness the Sultan states that he does not forget Raja Muhammad Hanafiah, but that his father did a lot of good work before he was promoted to be Imam Paduka Tuan.

21. The request of the District Officer, Upper Perak, that a Kuasa as Naib Kathi may be issued to Ngah Mat Sapi, Koran Teacher, Temengor, is approved.

22. A letter is read from the District Officer, Kuala Kangsar, on the subject of the fees charged by Naib Kathis for the registration of Muhammadan marriages and divorces. It is decided by the Council that Naib Kathis not in receipt of regular pay may retain the fees they receive according to the approved scale laid down in Section 4 of "The Muhammadan Marriage and Divorce Registration Enactment, 1904," but that every three months they must send a return to the Secretary to Resident showing the total amount received.

23. The report of certain Penghulus, recently deputed to visit the Leper Asylum at Pulau Pangkor, is read by the British Resident to the Council, and pronounced to be satisfactory.

24. Permission to be allowed to mine agricultural land is granted as follows:

Name.	District.	Title.	Area.	Premium.
			A. R.	\$
Moona Sidumbrum Pillay son of Mooto Rama Pillay	Larut, Taiping Township	C. T. No. 593, Lot No. 416	1 1	25 per acre

25. A letter is read from the Commissioner of Police, recommending that Police Constables be relieved of the necessity of serving summonses of Penghulus' Courts on charges under Section 3 of "The Muhammadan Laws Enactment, 1904." A discussion follows, and the decision arrived at is that the Sultan in Council cannot relieve the Police of the duty of serving processes in Penghulus' Courts, but thinks that all summonses for non-observance of Section 3 of the Muhammadan Laws Enactment should be served by the Penghulu Misjid.

26. The British Resident reads a return of convictions under the Muhammadan Laws Enactment during the year 1906.

27. The following contributions to the cost of erecting Mosques are recommended:

For Pulau Tiga	\$400
„ Sungkai	175

28. The subject of the proposed new Mosque at Ipoh is discussed, the present position of affairs being explained by the British Resident to the Council. The decision of the Sultan in Council is—

(a) That the land of the present Mosque be sold, and the money paid into the Bank;

(b) That the heirs of the late Datoh Panglima Kinta be required to contribute as follows:

Male heirs	\$1,000 each
Female „	500 „
Wives	500 „

(c) That the money be paid into the Bank;

(d) That the Government obtain plans and submit them to His Highness in Council.

The Council adjourns at 5.15 p.m. *sine die*.

ABSENT:

His Highness Sir IDRIS MERSID-EL-AZZAM SHAH, G.C.M.G., Sultan of Perak.

The Raja Bendahara, Raja ABDUL JALIL.

The Datoh Panglima Besar, Haji ABDUL RAOF.

The Council meets at 11.30 a.m.

1. The Resident lays on the table and explains to the Council a draft Enactment to enable the High Commissioner to appoint Commissioners to enquire into and report on matters referred to them by the High Commissioner. This is passed as "The Commissions of Enquiry Enactment," becoming No. 13 of 1907.

2. An Enactment to amend "The Labour Enactment, 1904, No. 1 (General)," is introduced by the Resident and passed, becoming No. 14 of 1907.

3. An Enactment to amend "The Labour Enactment, 1904, No. 3 (Chinese Agricultural), Amendment Enactment, 1904," is explained by the Resident to the Council, and passed as No. 15 of 1907.

4. An application by Messrs. Robert William Heads, Mining Engineer, and James Duncan MacArthur, Consulting Engineer, both of Langsuan, in the Kingdom of Siam, for a grant of exclusive privileges in respect of their invention for "A new or improved Ore-dressing Machine" is considered. Mr. Osborne points out that the process for which patent rights are claimed is not entirely unknown in Perak, and, after some discussion, it is decided that the specification be referred to a Committee, consisting of Mr. Osborne and Towkays Chung Thye Phin, Leong Fee and Foo Choo Choon, for further investigation.

5. With reference to the Council Meeting of the 3rd July, 1907, at which Ahmad bin Taib, Penghulu, Gopeng, was promoted to be Penghulu, Bruas, the Resident announces that Ahmad does not wish to go to Bruas, and that his transfer to the Mines Department has now been arranged. In these circumstances Raja Basah bin Raja Alang Mahmud, Penghulu, Jebong, is appointed Penghulu, Bruas (Class II), on the initial salary of \$480 per annum; while Muhammad Drus, Assistant Penghulu, Plang (Pulau Kamiri Mukim), is promoted to be Penghulu, Jebong (Class III), with salary at the rate of \$360 a year. (He is already in receipt of \$300 per annum and 10 per cent. allowance). The selection of a suitable Assistant Penghulu for Plang is left to the Secretary to Resident, who keeps the list of applicants.

6. A petition is read from the principal Muhammadan inhabitants of Batu Gajah, asking for assistance towards building a new and suitable Mosque, estimated to cost \$3,500. Towards this sum only \$400 have so far been collected. The Council decides that dollar for dollar may be given by Government up to a maximum of \$1,500, but that the proposed plan is too elaborate, and that the total estimate should not exceed \$3,000.

7. Applications to be allowed to mine agricultural lands are considered and approved as follows:

Name.	District.	Title.	Area.	Premium.
			A. R.	\$
Yap Toh and Tan Ping	Kuala Kangsar	M. E. No. 252, K. L. Kanan	2 3	60
Jackmah	"	M. E. No. 290, K. L. Kanan	2 0	40
Puteh Jelisin	"	M. E. No. 291, K. L. Kanan	1 0	20

8. The following statements are read by the Resident :

- (a) Statement of Perak Cash and Bank Balances, Fixed Deposits and Investments on the 31st May, 1907;
- (b) Statement showing the Pahang Loan Account;
- (c) Return of Tin and Tin Ore Exported and Duty Collected thereon for the six months, January to June, 1907;
- (d) Return of Opium Imported and Duty Collected thereon for the six months, January to June, 1907.

As regards statement (c), from which it appears that there is a decrease of 2,382.65 pikuls in the export of tin and tin ore compared to the corresponding period of last year, Mr. Osborne gives it as his opinion that the coolies do not work so hard as they used to do, and also that tin is harder to win nowadays. Towkay Foo Choo Choon confirms this opinion, and says that it is necessary to go much deeper to find tin now than formerly, quoting his own mine at Sungei Besi as an example.

As regards statement (a), Mr. Osborne and Towkays Foo Choo Choon and Chung Thye Phin again urge the question of the establishment of an Agricultural Bank. Towkay Chung Thye Phin points out that it would be an immense boon to miners, and condemns the present state of affairs under which the large sums of money made by Chetties go out of the country, practically nothing being spent by them in helping to open up Perak. Towkay Foo Choo Choon urges that town property at Ipoh or Kampar would be safe security for Government up to 60 per cent. of the sum loaned.

The Council is unanimously in favour of such an Institution, and Mr. Osborne considers that, if Government gave \$2,000,000, it would be quite sufficient an amount with which to start an Agricultural Bank.

9. The Resident suggests the advisability of holding a Mining Show at Ipoh sometime next year. The Council expresses approval of this, and Mr. Osborne remarks that it would be very interesting, but that long notice should be given, so that all necessary arrangements can be properly made by a representative Committee.

The Council adjourns at 1 p.m. *sine die*.

C. W. H. COCHRANE,
Clerk of Councils.

COUNCIL OF STATE, KUALA KANGSAR.

TUESDAY, 20TH AUGUST, 1907.

PRESENT :

His Highness Sir IDRIS MERSID-EL-AAZAM SHAH, G.C.M.G., Sultan of Perak.

The British Resident, E. W. BIRCH, Esq., C.M.G.

The Acting Secretary to Resident, R. J. WILKINSON, Esq.

The Raja Bendahara, Raja ABDUL JALIL.

The Orang Kaya Kaya Sri Adika Raja, WAN MUHAMMAD SALEH, I.S.O.

The Orang Kaya Kaya Laksamana, INCHE' HUSSEIN.

The Orang Kaya Kaya Stia Bijaya di Raja, JERAGAN ABDUL SHUKOR.

The Datoh Panglima Besar, Haji ABDUL RAOF.

ABSENT :

Raja CHULAN bin Ex-Sultan Abdullah.

The Orang Kaya Mentri Paduka Tuan, WAN MUHAMMAD ISA.

F. D. OSBORNE, Esq.

Towkay FOO CHOO CHOON.

Towkay LEONG FEE.

Towkay HEAH SWEE LEE.

Towkay CHUNG THYE PHIN.

The Council meets at 11.30 a.m.

1. An Enactment to amend "The Krian Irrigation Enactment, 1905," is explained by the Resident to the Council and passed, becoming No. 16 of 1907.

2. A draft amendment to the Appraisers Enactment is laid on the table. The Resident reminds the Members that the Appraisers Enactment has not yet become law in Perak, as great exception was taken to it at the Council Meeting of the 18th January, 1907. The Malay Members state that the amendment is satisfactory, but do not wish it to apply to peasant holdings, as the present system is far more equitable. This being the case, the Secretary to Resident undertakes to address the Resident-General again upon the subject.

3. The Resident reads the record of the proceedings before the Court of Appeal in the matter of an appeal by one Govinden, who, on the 27th May, 1907, was convicted before the Judicial Commissioner, Perak, sitting with two Assessors, of the offence of murder, and was sentenced to death; a sentence confirmed by the State Council on the 15th June last. The Court of Appeal dismissed the appeal, but considered that, in view of certain facts, the clemency of His Highness the Sultan in Council might properly be exercised in the case, and the death sentence be commuted to one of rigorous imprisonment. It is decided, after much discussion and after voting, to commute the death sentence to one of imprisonment for life.

4. The Resident reads the notes of evidence taken in a case in which one Durahman was convicted of murder at Lenggong, and sentenced to death by the Judicial Commissioner, Perak, sitting with two Assessors, on the 16th July, 1907, with a recommendation to mercy. It is ordered by His Highness the Sultan in Council that the death sentence be commuted to one of rigorous imprisonment for fifteen years.

5. The following changes among Assistant Penghulus are sanctioned :

- (a) Alang Mamat bin Wahab, Assistant Penghulu, Ulu Bernam, to exchange with Indut bin Ngah Hamid, Assistant Penghulu, Batang Padang ;
- (b) Muhammad Asrudin bin Ahmad Tasir, Assistant Penghulu, Bandar, to exchange with Samsudin bin Muhammad Sharif, Assistant Penghulu, Telok Bahru.

6. The Resident reads a report received from the District Officer, Larut and Krian, regarding the conduct of Haji Mat Yasin, Assistant Penghulu, Kuala Kurau, in connection with the sale by auction of a piece of town land at Kuala Kurau in December last. After some discussion, it is decided that both Haji Mat Yasin and Pandak Brahim, the Penghulu, be warned, and that Haji Mat Yasin's salary be reduced from \$291, with the 10 per cent. allowance, to \$240 per annum, without it, as from this date.

7. A report by Mr. Laidlaw, Assistant District Officer, Lower Perak, on the subject of water-wheels for the Perak River is considered, and the sum of \$200 for the erection of wheels approved as an experiment.

8. The application of Dr. Edith Boomgardt, to be allowed to convert to Mining Town Leases 746 and 1,099, comprising 4 acres, 1 rood, and 7 perches, and a portion of Lease 756, about one and a half acres, all within Taiping Township, is discussed. Applicant is given permission to mine these lands on payment of \$500 premium. Mining to be finished in two years: any extension to be subject to reference to Council. Land to be levelled up and handed over to Government after it is mined, except a depth of 120 feet road frontage. No overburden to be stacked on State land or land other than the property of the mine-owner. Mining to be conducted in such a manner as to cause as little annoyance as is reasonably possible to the Hospital. Security up to \$5,000 for fulfilment of these conditions, to be accepted in the shape of an approved cheque or bond.

9. The following applications for the conversion of agricultural into mining land are approved :

Name.	District.	Title.	Area.	Premium.
			A. R. P.	\$
Mat Tahir bin Mat Esah ...	Kuala Kangsar	M. E. 353 and 359, Kota Lama Kanan ...	1 1 10	50
Looi Soon	Kinta ...	A. L. 367 ...	20 0 34	350

10. A petition from the Batu Gajah Tin Mining Company, addressed to His Highness the Sultan, regarding the conversion into mining of their agricultural titles in the mukim of Sungei Trap, Kinta, is considered, and the Datoh Sri Adika Raja and the Clerk of Council are requested to visit the lands and make further enquiry.

11. The Resident announces that the District Officer, Kuala Kangsar, has asked whether there should be a limit to the number of Malay applicants for a particular piece of mining land, quoting a case in which seven Malays have put in a joint application for 30 acres at Senggang. The Kuala Kangsar authorities hint that these men would be much better employed in their bendangs, but this, in the opinion of the Resident, is going too far. He quotes Sir Hugh Low and Sir F. Swettenham, both of whom were in favour of giving mining land to Malays, on the grounds that it is their country, and that it is wrong to refuse them and at the same time to allow Chinese and Indians the chance of growing rich over tin. If a Malay makes money at mining, he spends it in the country, and should, therefore, be encouraged. The Council agrees that Malays should in no wise be prohibited from owning mining land, while, as regards a limit to the number of joint applicants (and some limit is, in the interests of the Land Office, very desirable), it is decided that only two names should appear in the application registered by the Land Office, an outside agreement of any shares being drawn up and duly stamped, and a copy kept in the Land Office.

12. With reference to the recent death, in Kinta, of Che Kulup Muhammad, who drew a pension of \$1,980 per annum from the Perak Government, the Datoh Sri Adika Raja points out that he was the son of Che Midah, who assisted Government in many ways formerly, and gave up to Sir Hugh Low the site of the present Kuala Kangsar Residency. He suggests that the pension drawn by Che Kulup Muhammad should be divided among his family, which consists of two sons and three daughters. All are in good circumstances, but it would be a graceful act to allow each to draw a pension of \$20 per mensem. His Highness the Sultan concurs with this expression of opinion, but thinks \$15 each per mensem sufficient, thus halving the original pension. This is unanimously agreed to.

13. The question as to whether the pension of \$66 per annum to Syed Mansur's children, granted only during the lifetime of Che Kulup Muhammad, should now lapse, is deferred, pending enquiry as to the origin of their claim to a pension from Government.

14. A petition from the Committee of the Clerks' Library, Taiping, to His Highness the Sultan in Council is read, pointing out the utility of the institution, and asking for assistance. The Members of Council respond to this appeal by personally subscribing to the funds of the Library.

15. The question of a successor to Syed Abdullah, who has recently resigned the post of Chief Kathi, is introduced. The Secretary to Resident proposes that Haji Abdul Karim, Assistant Kathi, Kuala Kangsar, be promoted to be Chief Kathi, following precedent, and that Raja Muhammad Hanafiah, Assistant Kathi, Parit, be made Assistant Kathi, Kuala Kangsar. His Highness the Sultan approves these appointments. The Datoh Sri Adika Raja remarks that hitherto it has been customary for all the Kathis to gather round the Sultan for instructions, and to abide by his wishes and advice. Departure from this rule has led to the present trouble. He considers that explicit instructions for the guidance of Kathis should be issued, just as Magistrates have books for their guidance. His Highness the Sultan says that the Kuasa for the new Chief Kathi will be considered in Council at the next meeting, and that the Tungku Mentri and Raja Chulan should be specially consulted.

16. The Secretary to Resident brings up the question of the Lahat rebate, due to the heirs of the late Datoh Panglima Kinta, and suggests that the Datoh Sri Adika Raja and himself should work out the exact figures from the records in the Secretariat. The Council decides that the rebate be payable up to the date on which the other moiety ceased to be drawn by the French Mining Company at Lahat, but not after that date.

17. The Resident announces that it is desirable to appoint another Member of Council, as there is a vacancy among the Malay Members. Raja Ngah Abubakar is unanimously selected for the position.

The Council adjourns at 4.30 p.m. *sine die*.

C. W. H. COCHRANE,
Clerk of Councils.

COUNCIL OF STATE, KUALA KANGSAR.

TUESDAY, 1st OCTOBER, 1907.

PRESENT :

His Highness Sir IDRIS MERDUD-EL-AZZAM SHAH, G.C.M.G., Sultan of Perak.

The British Resident, E. W. BIRCH, Esq., C.M.G.

The Acting Secretary to Resident, R. J. WILKINSON, Esq.

The Raja Bendahara, Raja ABDUL JALIL.

Raja CHULAN bin Ex-Sultan Abdullah.

Raja NGAH ABUBAKAR bin Raja Omar.

The Orang Kaya Mentri Paduka Tuan, WAN MUHAMMAD ISA.

The Orang Kaya Kaya Stia Bijaya di Raja, JERAGAN ABDUL SHUKOR.

The Orang Kaya Kaya Laksamana, INCHE' HUSSEIN.

The Datoh Panglima Besar, Haji ABDUL RAOF.

F. D. OSBORNE, Esq.

Towkay CHUNG THYE PHIN.

Towkay FOO CHOO CHOON.

ABSENT :

The Orang Kaya Kaya Sri Adika Raja, WAN MUHAMMAD SALEH, I.S.O.

Towkay LEONG FEE (on leave of absence).

Towkay HEAH SWEE LEE.

The Council meets at 11 a.m.

1. The Tamil Immigration Fund Enactment is explained by the Resident and passed by Council, on the understanding that His Excellency the High Commissioner does not regard it as a final settlement of the question. It is numbered 17 of 1907.

2. An Enactment to amend the "Jinrikisha Enactment, 1900," is passed, becoming No. 18 of 1907.

3. An Enactment to repeal and re-enact with amendments "The Prisons Enactment, 1904," is passed, becoming No. 19 of 1907.

4. An Enactment to prohibit the payment of labourers' wages on the truck system, cited as "The Truck Enactment," is explained by the Resident, and its provisions stated in detail to Council. Towkays Chung Thye Phin and Foo Choo Choon object to the Enactment, on the ground that the majority of mining coolies are working on the chabut system. Mr. Osborne supports their contention, and considers that the chabut system must be accepted. It is based on a contract, the terms of which are fully set out between the parties. If it had not been for this system, many of the richest mines would never have been discovered, nor would there have been enough capital to open up new places. Moreover chabut coolies do the best prospecting, since they are interested in the venture. It is eventually decided to refer the draft Enactment to a Committee, consisting of Mr. Osborne and Towkays Chung Thye Phin and Foo Choo Choon, with

a view to their considering the question and submitting a report at the next Meeting of Council, the Resident emphasising the fact that some of the existing evils must be removed.

5. In reply to a question by the Resident, Mr. Osborne and the Chinese members state that, in their opinion, the Mineral Ores Enactment serves a good purpose. The subject of Inspectors is discussed, and it is recommended that two Chinese Inspectors be appointed, with salary of \$100 per month. They should furnish good security, and there should be no Overseers on small pay.

6. The following conversions of agricultural into mining land are approved:

Name.	District.	Title.	Area.	Premium.
			A. R. P.	\$
Teh Samah	Kuala Kangsar...	M. E. No. 399, Pulau Kamiri	3 1 38	50
Eu Tong Sen	Batang Padang...	M. E. No. 1. Chanderiang...	24 1 06	400

Chia Tek	"	A. L. 808 & 1,271	42 1 21	25 "
Chang Ngho Hin	"	A. L. 1,377	1 1 17	25 "

7. The Resident reads the report of the Datoh Sri Adika Raja and Clerk of Council, who were instructed at the Council Meeting of the 20th August, 1907, to enquire into the application of the Batu Gaja Tin Mining Company, Limited, for the conversion of their agricultural lands into mining. After some discussion, it is resolved that conversion be allowed at a premium of \$25 an acre.

8. The question of placing some restriction on carts carrying timber through the streets of Ipoh is raised, and it is advised that, after the end of the present year, there must be a uniform pattern of cart or lorry.

9. Mr. Osborne, on behalf of the Committee appointed by Council on the 24th July, 1907, to investigate the application of Messrs. Heads and MacArthur for a grant of exclusive privileges in connection with their invention of "A New or Improved Ore-dressing Machine," reports that the Committee have considered the petition, and agree that the combination claimed in the invention is novel. A grant of exclusive privileges for 14 years is therefore approved. His Highness the Sultan expresses his thanks to the Committee for the trouble they have taken in the matter.

10. A contribution of \$150 towards the cost of erecting a new Mosque at Utan Melintang, in the Lower Perak District, is recommended.

11. Council considers an application from the inhabitants of Bruas for Government assistance in the building of a Mosque at Bluker Sambang. It is decided that this application must stand over for the present.

12. The application of Haji Abdul Rafar bin Ngah Ahmad for the post of Assistant Kathi, Parit, is deferred pending further enquiry.

13. The Secretary to Resident reads the draft of a revised Kathi's Kuasa, prepared by him with the advice of His Highness the Sultan. This is agreed to. The Sultan undertakes to communicate with the Rulers of the other States.

14. With reference to a question raised at the Council Meeting of the 20th August, 1907, the Resident explains that the pension of \$66 per annum to the children of Syed Mansur was expressly granted only during the lifetime of their great-uncle Che Kulup Muhammad. Owing to the recent death of Che Kulup Muhammad, the pension *ipso facto* lapses.

15. The history and circumstances of one Che Puteh Halimah, who asks for assistance, are related by the Resident, and the Secretary to Resident is requested to enquire further into the case.

16. The Resident points out that, now the Krian Irrigation Scheme is in full working order, something must be done about the *batas* in the padi-fields. The people are very slow in making them, and, as a rule, when completed, they are not sufficiently strong to retain the water. Raja Chulan promises to see what he can do by advice to the Malays after the present padi season.

17. The Secretary to Resident reads the report of a Commission of Enquiry recently appointed in the case of Wan Mat Nasir, Penghulu, Bukit Gantang. The finding of the Commission is, on the whole, in favour of the Penghulu, but it is resolved that he be severely reprimanded.

18. Raja Ngah Jafar, Assistant Penghulu, Kampar, is granted an allowance of \$10 a month, while acting as Penghulu for the period between the departure of Raja Ngah Abubakar to Lenggong and the arrival of Raja Johor, the new Penghulu.

19. It is decided that Muhammad Jawi, Penghulu, Pulau Kamiri, be permitted to continue to reside at Kuala Plus, instead of taking up his residence at Sungei Siput.

20. The application of Ahmad Tasir, Penghulu, Telok Anson, for three months' leave of absence is approved.

21. The retirement on pension of Muhammad bin Aman, Penghulu, Tanjong Piandang, on the grounds of old age and inefficiency, is approved. Mir Ahmad, Assistant Penghulu, Lenggong, is selected to succeed him, while the post of Assistant Penghulu, Lenggong, is given to Muhammad Lambok, School Teacher at Bota.

22. The grant of three months' leave of absence to Towkay Leong Fee, to enable him to proceed to China, is confirmed by Council.

23. The general question of Malay Settlement Officers is discussed. The Resident states that His Excellency the High Commissioner is in favour of Settlement Officers being Malays, and that he himself agrees, except in Kinta, where Europeans are necessary for the mining work.

The point then arises whether they should be selected from the Malay College at Kuala Kangsar, or from the ranks of the Penghulus. Raja Chulan remarks that a knowledge of English is essential for settlement work, and eventually it is agreed that they should be chosen from among the most promising boys at the Malay College. It is also decided that they start on a salary of \$50 a month during the probationary period of six months, and that, if continued in the appointment, they may then draw the initial salary allowed by the Scheme.

The Council adjourns at 3 p.m. *sine die*.

"THE TELEGRAPHS ENACTMENT, 1905."

IN exercise of the powers vested in him by section 5 of "The Telegraphs Enactment, 1905," the Resident-General hereby makes the following Rules, to come into operation on the 1st day of January, 1908.

All rules and orders heretofore made under any Enactment, Order in Council, or Regulation relating to Telegraphs shall be rescinded as from the date above mentioned in so far as they relate to any matter regulated by the following rules.

1. Telegraph Offices are distinguished as follows :

- A. Postal Telegraph Offices :
- B. Railway Telegraph Offices.

2. **BUSINESS HOURS.**—Telegrams are accepted at all Postal Telegraph Offices during the hours they are open for business as shown on the notices exhibited outside the offices.

Railway Telegraph Offices accept telegrams during the hours they are open for railway business, but always subject to the necessities of railway traffic.

RULES FOR INLAND TELEGRAMS.

3. **INLAND TELEGRAMS** are those which are sent to or received from places within the Malayan Telegraph System—that is the system controlled and worked by the Governments of the Straits Settlements and the Federated Malay States.

4. The Governments undertake to adopt all necessary measures to ensure the secrecy of telegrams and their prompt despatch, but do not hold themselves legally responsible for the accuracy of telegrams, nor for the consequences of non-delivery, errors, or delay.

5. **OFFICES WHERE INLAND TELEGRAMS ARE ACCEPTED.**—Inland telegrams are accepted at all Postal Telegraph Offices and at Railway Telegraph Offices at places where there are no Postal Telegraph Offices. Inland telegrams from passengers are, however, accepted at all Railway Telegraph Offices.

6. **OBJECTIONABLE TELEGRAMS.**—The Governments reserve to themselves the power to stop any private telegrams which may appear dangerous to the security of the State, or contrary to the laws of the country, or to public order or decency. The terminal or any intermediate office may exercise this control on condition of immediately advising the office of origin. Telegraph Offices are required to refuse to transmit any telegram which appears to be of the above character.

Should the character of the telegram be open to doubt, the matter will be referred to the Chief Administrative Officer of the State or Settlement.

7. GENERAL DIVISION. Inland telegrams are divided into four classes:

- (a) Government telegrams;
- (b) Service telegrams;
- (c) Private telegrams;
- (d) Press telegrams.

MODE OF WRITING, ETC.

8. CHARACTERS.—Inland telegrams must be written legibly in characters which have their equivalent in telegraphic signals. These characters are the following:

- (a) *Letters*.—A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z.

Except in cipher language, the combination "ch" counts as one character of the Morse alphabet, so also do the twin vowels "æ," "œ" and "ue," commonly used to represent the continental modified vowels ä, ö and ü:

- (b) *Figures*.—1, 2, 3, 4, 5, 6, 7, 8, 9, 0;

NOTE.—There are no telegraphic signals for Roman numerals, such as I, II, etc.

- (c) *Stops and other Signs*.—Full stop (.), comma (,), semicolon (;), colon (:), note of interrogation (?), note of exclamation (!), apostrophe ('), hyphen or dash (-), brackets or signs of parenthesis (), inverted commas (" "), bar of division (), underline (),

With the exception given in rules 48, 51 and 61, the above stops are not counted or transmitted;

- (d) *Special Instructions and Conventional Abbreviations*.—

- = D = Urgent telegram;
- = RP* = Telegram with reply paid (rule 91);
- = RPD* = Telegrams with urgent reply paid (rule 92);
- = TC = Telegram to be repeated (collated), (rule 96);
- = PC = Telegram the delivery of which is to be notified by telegraph (rules 97 and 98);
- = PCD = Telegram the delivery of which is to be notified by an urgent telegram (rules 97 and 98);

* Number of words prepaid to be inserted here.

3

- = PCP = Telegram the delivery of which is to be notified by post (rules 97 and 98);
- = Post = Telegram to be posted at the Terminal Telegraph Office (rules 103, 104 and 110);
- = PR = Telegram to be posted as a registered letter at the Terminal Telegraph Office (rule 110);
- = Express = Telegram for places beyond the free delivery to be delivered by special messenger (rules 103, 104 and 106);
- = XP* = Portorage prepaid (rule 107);
- = XPT = Telegram on which the sender has undertaken to pay the portorage charges on the amount being advised by telegraph (rules 108 and 109);
- = XPP = Telegram on which the sender undertakes to pay the portorage charges on the amount being advised by letter (rules 108 and 109);
- = RO = Telegram to be delivered open (rule 80);
- = MP = Telegram to be delivered to addressee personally (rule 79);
- = TR = Telegram to be called for at the Telegraph Office (telegraph restant), (rule 81);
- = GP = Telegram to be called for at the Post Office (poste restante), (rule 81);
- = GPR = Telegram to be registered and kept at the Post Office till called for (rule 81);
- = TM † = Telegram with multiple address (rule 99).

9. LANGUAGE.—Subject to the above limitation, the text of private telegrams may be written in plain language or in secret language. Secret language is divided into code and cipher language.

10. Plain language is that which offers an intelligible sense in one or more of the following languages :

Annamite	German	Polish
Arabic	Greek	Portugese
Armenian	Hebrew	Roumanian
Bohemian	Hungarian	Russian
Bulgarian	Illyrian	Ruthenian
Croatian	Italian	Servian
Danish	Japanese	Siamese
Dutch	Latin	Slavonic
English	Malay	Spanish
Flemish	Norwegian	Swedish
French	Persian	Turkish

and, locally only, Chinese, Tamil and other Indian languages.

* Here insert amount paid (for example, "XP dollars 2," the whole expression counting as one word).

† Here insert number of addresses.

4

11. By telegrams in plain language is understood those of which the text is written entirely in plain language. Nevertheless, the presence of commercial marks, of the letters representing the signals of the universal commercial code used in semaphoric telegrams, of abbreviated expressions commonly used in ordinary or business correspondence—such as fob, caf, svp, rsvp, c/o, b/l—or any analogous expressions does not alter the character of a telegram in plain language.

12. Code language is that which is composed of words which do not form intelligible phrases in one or more of the languages authorised for telegraphic correspondence in plain language.

13. The words whether genuine or artificial must be formed of syllables capable of pronunciation according to the usage of one of the following languages :

English, French, German, Italian, Dutch, Spanish, Portugese or Latin.

14. Words in code languages must not contain more than ten characters according to the Morse alphabet.

15. Combinations which do not fulfil the conditions of rules 13 and 14 are considered as belonging to letter cipher language (rule 16) and charged accordingly. Compounds composed of two or more words in plain language contrary to the usage of the language are not admitted.

16. Cipher language is that which is formed—

- (1) Either of Arabic numerals, of groups or series of Arabic numerals having a secret meaning, or of letters, groups or series of letters having a secret meaning ;
- (2) Of words, names, expressions, or combinations of letters not fulfilling the conditions of plain language (rules 10 and 11) or of code language (rules 12 to 14).

17. The employment in the text of one and the same telegram of letter cipher and figure cipher is prohibited.

18. The groups of letters referred to in rule 11 are not considered as letter cipher—*i.e.*, as letters having a secret meaning.

19. ERASURES, ETC.—Every interlineation, reference, erasure or rewritten word must be authenticated by the sender or by his representative.

20. PARTS OF A TELEGRAM.—The different parts forming a telegram should be written in the following order :

- (1) Special instructions, if any ;
- (2) Address ;
- (3) The body or text of the telegram ;
- (4) The sender's name.

21. SPECIAL INSTRUCTIONS.—The sender should write upon the form in the place provided for the purpose, such of the special instructions provided in rule 8 (d), as he may desire to make use of.

22. In the case of a multiple telegram the special instructions which concern each addressee should be written immediately before his name; but in the case of an urgent or collated multiple telegram it is sufficient if the instruction relative to urgency or collation be written once only before the first address.

23. Special instructions may be written in the abbreviated forms allowed in rule 8 (*d*). So written they are counted each as one word.

24. Every address must, in order to be accepted, contain at least two words: the first designating the addressee, the second indicating the name of the Telegraph Office of destination.

25. The address should contain all the particulars necessary to ensure the delivery of the telegram to the addressee without search or enquiry.

26. In the case of large towns, the address ought to contain the name of the street and the number of the house, or, in the absence of these particulars, to specify the profession of the addressee or give any other information which would facilitate the delivery of the telegram.

27. Even for small towns, the name of the addressee ought to be as far as possible accompanied by additional particulars to guide the Delivering Office in case of alteration of the proper name.

28. When a telegram is addressed to one person care of another, the address should be preceded by the words "care of," "c/o," "chez," or any other equivalent. In the case of foreign telegrams the abbreviation "c/o" should not be used as it is not universally understood.

29. **INSUFFICIENT ADDRESS.** Telegrams, the address of which does not satisfy the conditions laid down in the preceding rules, are, nevertheless, accepted and transmitted at the sender's risk.

30. In every case the sender has to bear the consequences of an insufficient address, which, after the telegram has been despatched, can neither be completed nor altered, except by a paid service advice.

31. **PRECONCERTED OR ABBREVIATED ADDRESSES.** The address may be written in preconcerted or abbreviated form. But the right of an addressee to have a telegram thus addressed delivered to him is subject to an agreement made between the addressee and the Telegraph Office which has to deliver the telegram.

32. Any firm or individual expecting to receive telegrams may register a preconcerted or abbreviated address at the Telegraph Office from which the telegrams have to be delivered. No charge will be made for registering an address.

33. No preconcerted or abbreviated address can be accepted, which has already been registered locally by another firm or individual.

34. The Governments accept no responsibility in respect of the delivery of any telegram having a preconcerted or abbreviated address if such address has not been registered, or for delay in delivering such telegram.

6

35. For preconcerted and abbreviated addresses only genuine words or proper names not exceeding ten letters in length may be registered.

36. **TEXT.**—Telegrams without text are admitted. A text composed exclusively of one or more signs of punctuation is inadmissible.

No private telegram or series of telegrams containing more than five hundred words can be sent at any one time by any individual or firm, and no subsequent telegram by the same individual or firm till after the lapse of three hours unless the telegraph lines be free of all other traffic.

37. **SIGNATURE.**—The true signature and address of the sender (which is not charged for or transmitted) must always be written at the foot of the telegram. The sender of a private telegram is bound to prove his identity, if requested to do so by the office of origin.

GOVERNMENT TELEGRAMS.

38. **DEFINITION.**—A Government telegram is a telegram on the business of the Government signed by an officer authorised to frank telegrams.

Principles to be observed—

- (a) Only those telegrams which relate exclusively to public business may be transmitted free of charge;
- (b) Applications for leave and replies thereto are not to be considered as Government telegrams;
- (c) Government telegrams are not to be sent when there is time to communicate by post;
- (d) The sender of a Government telegram may obtain priority of transmission by inserting the word "Urgent" immediately before the address. Messages should only be classed "Urgent" (1) in cases of real emergency; (2) in cases where the despatching officer knows that the line is blocked, and considers his message sufficiently important to take precedence of ordinary traffic;
- (e) Government telegrams should be expressed in as few words as are consistent with clearly conveying the intended meaning, and mere auxiliary or connective words, which can obviously be filled in by the receiver, should be omitted;
- (f) No Government telegram, except as provided in subsections (h) and (i), can be accepted for transmission free of charge, unless it is closed with the official title and authenticated with the signature of an officer authorised to frank Government telegrams.*

* A list of officers authorised to frank Government telegrams over the Malayan Telegraph System is supplied to every Telegraph Office in the Straits Settlements and Federated Malay States. A list of officers entitled to frank telegrams over the lines belonging to the Government of the Straits Settlements is supplied to offices in the Straits Settlements; and a list of officers authorised to frank telegrams over the lines belonging to the Federated Malay States to offices in the Federated Malay States.

- (g) In cases of emergency a telegraph official may, at his discretion, accept and transmit Government messages free, though not authenticated as required above. In such cases he will at once report the circumstances and will note them at the foot of the telegram ;
- (h) A reply to a Government telegram may be sent free of charge by the receiver of the telegram, and the right to return the reply as a Government telegram is recognised on production of the original telegram ;
- (i) Police telegrams shall be franked by chops which shall be accepted as equivalent to franks. The Police Officer authorising despatch shall initial the telegram in token of correctness in case of reference becoming necessary afterwards, but not as a guide to the Telegraph Clerk, who shall accept at once any Police telegram bearing a chop.

39. Government telegrams when they are written in secret language (code or figure or letter cipher) will be repeated by the receiving office as is done with collated telegrams.

40. PORTERAGE.—Any portorage due on Government telegrams must be prepaid by the sender.

SERVICE TELEGRAMS.

41. Service telegrams are divided into service telegrams properly so-called, and service advices. The former classification includes telegrams on the service of the Post and Telegraph Department which are sent free to or from any Telegraph Office.

42. Paid service advices are service telegrams exchanged between Telegraph Offices under rules 43 and 44.

PAID SERVICE ADVICES.

43. The sender or addressee of any telegram already transmitted or in course of transmission may, within the period of preservation of the messages—i.e., eight months—and after they have proved, if necessary, their right and their identity, cause enquiry to be made or instructions to be given respecting such telegram by telegraph. They may also, in order to make or obtain corrections, cause a telegram, which they have sent or received, to be repeated, entirely or in part, by the office of destination, or by the office of origin or any intermediate office. In all such cases they must deposit the following amounts:

- (a) The cost of the telegram making the request ;
- (b) The cost of a telegram for the reply, if a reply by telegraph is wanted.

44. Rectifying, completing or cancelling telegrams, and all other communications relating to a telegram already despatched or in course of transmission, when they are addressed to a Telegraph Office, must be exchanged exclusively between the offices under the form of paid service advices at the cost of the sender or the addressee making the demand.

45. The charges for service advices necessitated through errors of service are refunded under rules 124 and 128.

46. When the words of which the repetition is requested are written in a doubtful manner, the office of origin adds to the repetition a note "Writing doubtful." In this case no refund can be made.

47. The various communications referred to above may be made by post through the agency of the Telegraph Office of origin or destination. They are sent under registered cover at the cost of the person who makes the request, and who should, in addition, pay the cost of a reply by post when he demands one.

COUNTING OF WORDS.

48. WHAT IS COUNTED.—All that the sender writes upon the form, to be transmitted to his correspondent, is charged for, and consequently included in the number of words. However, signs of punctuation, apostrophes and hyphens are only transmitted if the sender pays for them as isolated figures or letters. In the absence of any request of the sender it is assumed that he does not wish them to be transmitted. When signs of punctuation, instead of being used singly, are repeated one after the other, they are charged for as groups of figures (*see also rule 36*).

49. PREAMBLE.—The name of the office of origin, the date and time of receipt of the telegram from the sender, the instructions as to the route, and the words numbers or signs, which constitute the preamble and are added by the Telegraph Office for official purposes, are not charged for: such of these particulars as reach the office of destination appear on the addressee's copy.

50. The sender may insert the particulars referred to in rule 49, wholly or in part, in the text of his telegram, but in that case they will be charged for.

51. The following are each counted as one word:

(1) In the address—

(a) The name of the Telegraph Office of destination when written as given in the list of Telegraph Offices in the Postal Guide,

(b) Initial letters standing for pre-names, Christian names, titles, etc. The joining together of such letters into groups is inadmissible;

(2) Each code word, which fulfils the requirements of rules 12 to 14;

(3) Each isolated character, letter or figure;

(4) Each underline;

(5) The two signs constituting a parenthesis;

(6) Inverted commas—*i.e.*, the two signs placed at the commencement and end of one and the same passage;

(7) Special instructions written in the abridged form authorised in rule 8 (*d*).

Exception.—When portorage is prepaid, the instructions to that effect are transmitted free.

52. **PLAIN LANGUAGE.**—In telegrams of which the text is written entirely in plain language each ordinary word and each authorised compound are counted, respectively, at the rate of one word for each 15 characters according to the Morse alphabet, plus one word for the excess, if any.

53. In plain language telegrams, registered addresses, whether used as the address or in place of the sender's name or occurring in the text, are always treated as words in plain language and counted at the rate of 15 characters to the word.

54. **CODE LANGUAGE.**—In the text of a telegram in code language the maximum length of a word is fixed at ten characters.

55. **MIXED TELEGRAMS.**—Words in plain language, inserted in the text of a telegram, composed of words in plain language and code are each counted at the rate of ten letters to a word.

NOTE.—This rule applies also to proper names (including registered addresses).

56. If the mixed telegram contains in addition cipher language, the passages in cipher are counted according to the stipulations of rule 60.

57. If the mixed telegram is composed only of passages in plain language and passages in cipher language, the passages in plain language are counted according to the stipulations of rule 52, and the passages in cipher language according to those of rule 60.

58. The address or sender's name in telegrams of which the text is written, wholly or partly, in code language is charged according to the stipulations of rules 51 and 52.

59. **USE OF APOSTROPHES AND HYPHENS.**—Words separated by an apostrophe or joined by a hyphen are counted as so many separate words. The apostrophes or hyphens are not charged for or signalled.

60. **FIGURES AND LETTER CIPHER AND COMMERCIAL MARKS.**—Groups of figures or of letters are counted as one word for each five figures or five letters which they contain. Plus one word for any excess. The letters "fob" (free on board), "cif" (cost insurance freight), "caf" (coût assurance frêt), "svp" (s'il vous plait), or any other analogous expression in general use, up to five letters, are accepted as one word each if written together. If written separately as "F. O. B.," "C. I. F.," and "C. A. F.," etc., they are counted as three words each.

61. **SIGNS USED WITH FIGURES OR LETTERS.**—Full stops, commas, dashes and bars of division are each counted as a figure or letter in the group in which they occur. This also applies to letters added to form ordinal numbers, as well as to letters added to figures to designate the numbers of houses in the address.

62. Combinations or alterations of words contrary to the usage of the language are not admitted.

Nevertheless, the names of towns and countries, surnames belonging to one person, the names of places, squares, boulevards, streets and

10

other kinds of public places, the names of vessels, integral and fractional numbers and fractions written in words, and compound words admitted as such in English or French, and which can, if a question arises, be justified by reference to a dictionary, may be respectively written as single words without either apostrophe or hyphen (*see* rule 59).

NOTE.—Names of Chinese are counted at the rate of one word for each fifteen letters.

63. The following are samples for counting and charging telegrams :

CHARGES.

64. CLASSES. — There are two classes of telegrams—Urgent and Ordinary. The corresponding charges between any two offices in the Malayan Telegraph System are as follows:

Class.	Unit number of words.	Unit rate.	Each additional word.
Urgent	7	63 cents	9 cents
Ordinary	7	21 ..	3 ..

* The telegraph is not able to produce such expressions as 30a, 15 × 6, etc. Senders must, therefore, substitute for them the explicit meanings "30 to the power a," "15 multiplied by 6" etc.; neither can a distinction be made between a vertical and a horizontal bar—i.e., 1'2. 1.

13

65. The transmission of telegrams will take place in the following order :

- First.*—Urgent Government telegrams ;
 - Second.*—Service telegrams ;
 - Third.*—Urgent private telegrams ;
 - Fourth.*—Ordinary, Government, private and press telegrams.
- “ Paid service ” telegrams rank for priority as ordinary telegrams.

PAYMENT OF CHARGES.

66. **CHARGES, HOW PAID.**—All charges must be prepaid, except those for supplementary services or special conveyance beyond the Telegraph Office of destination, which may be collected from the addressee.

Charges must be prepaid as follows :

If handed in—

- (a) At Postal Telegraph Offices in postage stamps ;
- (b) At Railway Telegraph Offices in cash.

67. **AFFIXING STAMPS.**—Stamps must be affixed on the spaces left blank for the purpose on the telegram form and the sender should see that the stamps are defaced with the office-stamp which bears the name of the office and the date.

68. **DAMAGED STAMPS.**—Stamps which are in any way defaced, discoloured or damaged are not accepted.

69. Receipts are given for all telegrams handed in at Railway Telegraph Offices. Receipts will also be given free of charge for telegrams handed in at Postal Telegraph Offices, provided that the sender fills up the receipt form at the foot of the telegraph form which will then be dated, stamped and initialled by the counter clerk.

70. **RECOVERY OF BEARING AND OTHER CHARGES FROM ADDRESSEE.**—In every case where charges have to be collected on delivery the telegram is only handed to the addressee upon payment of the amount due.

71. Undercharges made in error, and charges and expenses not recovered from the addressee in consequence of his refusal to pay them, or the impossibility of finding him, must be made good by the sender.

72. Overcharges made in error are returned to those entitled to them on application.

INTERRUPTION OF TELEGRAPHIC COMMUNICATION.

73. When in the course of transmission of a telegram an interruption takes place in the regular telegraphic communications, the office beyond which the interruption has taken place at once sends the telegram by an alternative telegraph route or, failing that, by post, registered if possible.

74. As soon as communication is re-established, the telegram is transmitted afresh by telegraph, unless its receipt has been previously

14

acknowledged, or unless, on account of an exceptional accumulation of traffic, this retransmission would be clearly injurious to the general service.

CANCELLATION.

75. If the sender of a telegram wishes to cancel it before transmission has begun, he can do so, and the charges less a fee of 8 cents will be returned. Provided that, if the telegram has been stamped and the stamps have been obliterated, the charges shall be refunded only on application being made to the Accountant, Posts and Telegraphs, Kuala Lumpur (for telegrams handed in at an office in the Federated Malay States), or to the Superintendent of Telegraphs, Penang (for telegrams handed in at an office in the Straits Settlements), within two months. If the telegram is in course of transmission or has already been despatched, it can be cancelled only by a paid service advice addressed under rule 43 to the terminal office. If, in addition, the sender wishes to be informed by telegraph in what manner his request has been acted upon, he must deposit the cost of the return telegram, otherwise he is informed by post. If the telegram has been delivered to the addressee, the latter is informed of its cancellation, unless the service advice contains instructions to the contrary.

DELIVERY AT DESTINATION.

76. ACCORDING TO ADDRESS AND ORDER.—Telegrams are according to their addresses either delivered at the residence of the addressee or kept till called for. They are in all cases delivered at or sent to their destination in order of receipt and priority.

77. FREE DELIVERY LIMITS.—Telegrams are delivered free of charge within two miles of a Postal Telegraph Office. Beyond this free delivery limit telegrams are sent by post without charge, or by such other means as the sender may arrange for.

78. Railway Telegraph Offices do not undertake the delivery of private telegrams to the addressee except at a station. Planters and others may, however, at their own risk and expense, make arrangements with Station Masters for the delivery of their telegrams by persons other than Railway Servants.

79. PERSONS TO WHOM TELEGRAMS MAY BE DELIVERED.—A telegram taken to the addressee's place of residence may be delivered either to the addressee or to any adult member of his family, or to any of his employés, lodgers or guests, or to the porter of the hotel or house, unless the addressee has named in writing a special person, or the sender has requested by writing on the form in the space marked "Class and instructions," the special instruction = MP =, that the telegram may be delivered only into the hands of the addressee himself. In this case the office of destination writes the request in full upon the envelope and gives the necessary instructions to the messenger.

80. OPEN DELIVERY.—The sender may also request that the telegram may be delivered open by writing on the form the special instruction = RO =. This request is reproduced on the copy handed to the addressee, which is delivered without an envelope, simply folded with the address written on the back.

15

81. **TELEGRAMS TO BE KEPT TILL CALLED FOR.**—If a telegram be addressed "Poste restante," it will be at once posted to or delivered at the Post Office, where as regards delivery and period of preservation, it will be subject to the same rules as postal correspondence. If addressed "Telegraph restant," it will be kept at the Telegraph Office with the receipt ready to be signed by the addressee on his application for the telegram.

For telegrams on which a charge has to be collected, addressed "Poste restante" or "Telegraph restant," and which have not been claimed by the addressee, the service advice of non-delivery is sent by ordinary paid letter at the expiration of the period for retaining such correspondence.

82. **DELIVERY ON SHIPS.**—Telegrams addressed to passengers on a vessel arriving at a port are delivered, if possible, before disembarkation.

83. Save in the case of delivery by post beyond the free delivery limits, the messenger who delivers a telegram may be entrusted with the reply, provided that he be not detained for this purpose more than five minutes. The fact of the reply having been given to the messenger, and the amount paid to him, should be mentioned on the receipt given for the original telegram.

84. **UNDELIVERED TELEGRAMS.**—When a telegram cannot be delivered, the office of destination sends a service telegram to that effect and the sender is informed except in the case of—

- (a) Telegrams addressed to await arrival, poste restante, telegraph restant, c/o Post (or Telegraph) Office;
- (b) Telegrams to places beyond the free delivery radius which have been duly posted and are subsequently returned as undelivered by the Post Office which posted them.

85. When in consequence of an inexact or insufficient address or of the addressee's absence or refusal, bearing charges have not been paid at destination, the amount of these charges is mentioned in the service telegram and the sender is bound to make them good.

86. If the messenger finds no one at the address given who will consent to receive a telegram for the addressee, the delivery receipt is left at the address given and the telegram is brought back to the office to be delivered to the addressee upon his application.

87. The form of receipt sent out with every telegram must be signed by the sender or his representative and all charges paid before the telegram is delivered by the messenger.

88. **UNCLAIMED TELEGRAMS.**—Telegrams unclaimed or undelivered are not kept after six weeks by the office of destination.

89. **RE-DIRECTED TELEGRAMS.**—At the request of the addressee made in writing at a Telegraph Office, telegrams addressed to him at that office will be re-directed to any office in the Malayan Telegraph System. The charge for such re-direction will be that for a fresh telegram, and may be prepaid by the addressee or recovered from him on delivery of the telegram.

16

90. DIRECTIONS ABOUT DELIVERY.—All directions, which persons leave at Telegraph Offices regarding the delivery or re-transmission of telegrams, should be renewed at intervals of at least six months.

SPECIAL TELEGRAMS.

A.—PREPAID REPLIES.

91. The sender of a private telegram may prepay a reply. The words "Reply paid," or = RP =, must be written before the address and paid for; the sender must state the number of words he has prepaid, for instance, "Reply paid twenty," or = RP 20 =, the first instruction counting as three and the latter as one word.

92. The sender may also prepay an urgent reply to his telegram; in this case he must write before the address the instruction "Reply paid urgent," or = RPD =, and pay the corresponding amount.

93. The amount prepaid by the sender may be used in payment of a telegram by the receiver during a period of 42 clear days. Should such reply or other telegram contain more words than have been prepaid, the excess must be paid for by the sender of the reply.

94. If the addressee of the original telegram cannot be found, the amount deposited for the reply will be refunded to the sender.

95. If the receiver does not make use of the amount prepaid, he may, within a period of three months, return the voucher delivered with the original telegram and request that the money be refunded to the sender.

If the reply be sent and contain a less number of words than have been prepaid, the difference will be returned to the sender, on application to the Accountant, Posts and Telegraphs, Kuala Lumpur (for telegrams handed in at an office in the Federated Malay States), or to the Superintendent of Telegraphs, Penang (for telegrams handed in at an office in the Straits Settlements), provided that the amount to be refunded is at least 20 cents.

B.—COLLATED (OR REPEATED) TELEGRAM.

96. The sender may have his telegram repeated from station to station on payment of an additional charge of one quarter the tariff rate. The words "Repetition paid," or the abbreviated signal = TC =, must be written before the address and paid for.

C.—ACKNOWLEDGMENT OF RECEIPT.

97. The sender may request that the date and time at which his telegram is delivered to the addressee be notified to him by telegraph or by post.

98. The words "Acknowledgment paid," or the abbreviated signal = PC =, or if an urgent acknowledgment by telegraph is required = PCD =, or if by post = PCP =, must be written before the address of the telegram and paid for. The cost of an acknowledgment of receipt by telegraph is equal to that of a telegraph of 10 words; for acknowledgment by post the charge is 13 cents, the acknowledgment being sent by registered post.

17

In the case of non-delivery, the acknowledgment of receipt is preceded by the service telegram provided for in rule 84. The acknowledgment of receipt is detained for six weeks, or is transmitted after the delivery of the telegram if that becomes possible. At the expiration of this period, if the telegram has not been delivered, the charge for the acknowledgment of receipt is refunded to the sender under rule 124, if he has not already applied for such refund.

D.—MULTIPLE TELEGRAMS.

99. Telegrams may be addressed—

(a) To several persons in the same place ;

(b) To one person at several addresses in the same place ;

if the words “ * Addresses.” or “ TM * =”, the former counting as two and the latter as one word, be written before the address, the name of the office of destination only appears once at the end of the address.

100. Telegrams addressed to several persons, or to the same person in localities where delivery is to be effected by different offices, are charged for as so many separate telegrams.

101. A telegram addressed to several persons in the same place, or to one person at several addresses in the same place, with or without further despatch by post, is charged as a single telegram ; but a copying fee of 20 cents per 100 words or fraction thereof is charged for each destination after the first.

In calculating the charge for the telegram all the names and addresses are included in the number of chargeable words.

102. Unless the sender requests to the contrary, each copy of the telegram will bear only its own address.

If it is required that all the addresses should be communicated to each addressee, then the sender must write before the addresses the instruction “ Communicate all addresses,” these three words being charged for.

E.—TELEGRAMS FOR PLACES WHERE THERE ARE NO TELEGRAPH OFFICES.

103. Telegrams addressed to places where there are no Telegraph Offices, or to addresses beyond the free delivery limit, may be delivered at destination according to the request of the sender either by post or by special messenger.

104. The address of telegrams to be conveyed beyond the free delivery limits must be preceded by the indication denoting the method of transport to be employed, whether post or special messenger. The name of the Telegraph Office from which the telegram is to be sent on should be stated last. For example—

Post (or express) Ah Fat, Miner, Parit, Siputeh.

105. The special instructions are charged for, but they may be written in the abbreviated form shown in rule 8 (d) when they are each charged for as one word.

* NOTE.—Insert the number of addresses—e.g., “ TM4.”

106. If the sender has not prepaid the charges for delivery by special messenger, the delivery office will not be responsible for non-delivery, should it be considered for any reason that the addressee cannot be relied on to pay the charges due. Should the addressee refuse to accept the telegram or to pay the charges due, the sender is liable for the charges.

107. When the sender desires to prepay the cost of transport, and if he can himself indicate the amount to be collected under this head by the Telegraph Office of origin, the telegram must bear the special instruction (charged for) = XP =. If the sum deposited is found to be insufficient, the difference is claimed from the addressee, but, if it exceeds the actual cost, the difference is not refunded.

108. A sender who does not know the amount of the transport charges can relieve the addressee from any payment either by paying the charge for a telegram of five words to the same destination or by paying a fee of 8 cents. He deposits as security an amount fixed by the office of origin with a view to eventual settlement. The telegram then bears one of the instructions "Express paid telegraph," = XPT =, or "Express paid letter," = XPP =. The instruction is written before the address and charged for.

109. The office which receives a telegram with the instruction "Express paid telegraph," = XPT =, notifies to the office of origin by paid service advice, the charge to be collected for portage. This advice takes the following form: "ST Taiping from Penang, 40 (number of paid service advice), 5 (number of words), 434 (number of the telegram), 16 (date of the telegram shown only by the date of the month), Express dollars 2.50." This information is given by prepaid ordinary letter when the supplementary instruction is "Express paid letter," = XPP =. On receipt of these particulars the office of origin effects a settlement.

110. **EMPLOYMENT OF POST.**—Telegrams to be sent by post are subject to the following supplementary charges:

- (a) Telegrams to be delivered within the limits of the country of destination: A fixed charge of 10 cents is payable in the case of those only which bear the paid instruction "Registered post," = PR =;
- (b) Telegram to be re-forwarded to a country other than that of telegraphic destination: The charge to be collected is 8 cents or 18 cents according to whether the address contains the paid instructions "Post," or "Registered post," = PR =.

111. The Telegraph Office of destination is entitled to employ the post:

- (a) In the absence of directions in the telegram as to the means of delivery to be employed;
- (b) Whenever there is an unpaid claim against the addressee for portage on a previous telegram which he has refused to pay;
- (c) When such has been the request expressly made by the sender or addressee;
- (d) When it has no more rapid means at disposal.

19

112. GENERAL PROVISIONS. In applying the preceding regulations, the facilities given to the public for urgent telegrams, prepaid replies, collated telegrams, acknowledgments of receipt, telegrams to follow, multiple address telegrams and telegrams to be forwarded beyond the telegraph lines may be combined.

PRESS TELEGRAMS.

113. The rate for press telegrams is 1 cent per word with a minimum charge of 10 cents.

A press telegram must be written in plain English, so as to be intelligible to the transmitting offices, and must contain nothing of concealed meaning either in code language or cipher.

114. It must contain only intelligence which is clearly intended for publication in the strict sense of the term.

A press telegram must not contain any passage, advertisement or communication having the character of private correspondence, nor any advertisement or communication the insertion of which is made in consideration of payment.

115. It must be addressed to a newspaper and shall be duly published or satisfactory reasons be given for non-publication, in the absence of which full rates will be chargeable.

116. Whenever demanded a copy of every newspaper in which a press telegram is published must be furnished to the Telegraph Office from which that press telegram was delivered.

117. Telegrams, the charges for which are to be collected on delivery (RTP), may be accepted, provided the sender presents some power from the addressee authorising to send such telegrams. In the event of refusal to pay by the addressee the office accepting the telegram for transmission is responsible for payment and may recover from the sender.

RECORDS.

118. PERIOD OF PRESERVATION.—The originals and copies of telegrams are kept for three days only in Postal Telegraph Offices, after which time they are sent to the Central Office,* where they are preserved for eight months from the first day of the month following that in which the telegram was deposited, and then destroyed.

119. SECRECY.—The originals or copies of telegrams can only be communicated to the sender or to the addressee after proof of identity, or to the authorised representative of either of them.

120. COPIES.—The sender or the addressee of a telegram, or the authorised representative of either, has a right to be furnished with a certified copy of the original telegram, or of the copy delivered at destination, on application, within eight months, to the proper officer.†

* The Accountant's Office, General Post Office, Kuala Lumpur, for telegrams handed in at an office in the Federated Malay States and the Telegraph Office, Penang, for telegrams handed in at an office in the Straits Settlements.

† The Accountant, General Post Office, Kuala Lumpur, as regards telegrams handed in at Post Offices in the Federated Malay States, and the Superintendent of Telegraphs, Penang, as regards telegrams handed in at offices in the Straits Settlements.

20

121. A fixed charge of 16 cents is made for every copy furnished in conformity with rule 120, if the telegram does not exceed 100 words. Over 100 words, this charge is increased by 16 cents for each 100 or fraction of 100 words.

122. **EXTENDED PRESERVATION.**—On the ground of pending or contemplated judicial proceedings, application may be made by an interested party to the proper officer (*see* rule 120, Note) for the preservation of specified telegrams exchanged between other persons. Such application must be made within the period of preservation, and such telegrams will then be preserved for a period of four months beyond the ordinary date for destruction; at the expiration of the further period, they will, in default of a renewed application, be destroyed. It must be understood that the duty of the Telegraph Department in the matter is confined to making the search and preserving the telegrams, if found. No information as to the result of the search will be furnished, and any telegram answering the description given, which may be found, will be produced only on the order of a competent Court of Law or other competent Authority.

123. **FEES FOR SEARCHING FOR TELEGRAMS.**—Should the particulars furnished be insufficient to enable the Central Office at once to trace the telegrams applied for under either rule 120 or rule 122, the cost of searching for them must be deposited by the applicant. A fee of 50 cents is charged for searching through the telegrams of any Telegraph Office for one day; thus, if it be required to examine the telegrams of two Telegraph Offices over a period of five days, the searching fee will be five dollars.

REFUNDS.

124. Refunds of the following charges on private telegrams are made to those who originally paid them on receipt of an application for such refund, or of a complaint against the service:

- (a) The full charge paid for every telegram, which, through the fault of the telegraph service, has failed to reach its destination;
- (b) The full charge paid for every urgent or ordinary telegram which has suffered a notable delay—that is to say, which does not arrive sooner than by post, or which occupies more than 24 hours in transit;
- (c) The full charge paid for every collated telegram, which, owing to errors made in transmission, has failed to accomplish its object, unless the errors have been rectified by paid service advices;

NOTE.—No refund is granted for errors made in the transmission of uncollated telegrams.

- (d) The full amount of every sum prepaid for a reply where the addressee has not made use of the voucher, or has refused it, or, when the voucher has been used, the difference if it be not less than 20 cents between the value of the voucher and the cost of the reply;
- (e) The full amount of the sum prepaid for a reply to a telegram which has not been delivered. The sender should forward with his application for refund the receipt granted for the original telegram and the report of non-delivery received by him;

21

- (f) The charges pertaining to any special service which has not been performed ;
- (g) Amounts deposited for paid service advice requesting repetition of a supposed incorrect passage and for replies thereto, if the repetition does not agree with the first transmission, with the reservation, however, that when some words have been correctly and some incorrectly reproduced in the first telegram, the charge for words in the request for repetition and in the reply relating exclusively to words correctly transmitted originally is not refunded, except when they have been repeated in consequence of their sense being obscured by the mutilated words. No refunds will, however, be made when the mutilation has been caused by illegible writing on the part of the sender, or by the message being sent over a telephone ;
- (h) The value of excess stamps affixed by the sender ;
- (i) The value of the stamps affixed to a telegram cancelled before transmission, less a fee of 8 cents.

125. No refund is made for the telegram which has given occasion to a request for correction, nor are any refunds made for rectifying or completing telegrams exchanged direct between the sender and addressee.

126. No refund is made on account of telegrams necessitated or rendered useless by the loss, delay or omission referred to under rule 124 (a), (b) and (c), nor beyond the amount indicated in rule 124 for any loss, injury or damage, arising or resulting from the non-transmission or non-delivery of a telegram, or delay or error in the transmission or delivery thereof.

127. Every application for refund should be addressed to the Accountant, General Post Office, Kuala Lumpur (for telegrams handed in at an office in the Federated Malay States), or to the Superintendent of Telegraphs, Penang (for telegrams handed in at an office in the Straits Settlements), and must be made within two months of the date of the despatch of the telegram.

128. Applications for refund must be accompanied by documentary evidence—namely,

- (a) In case of non-delivery or delay, by a written statement from the office of destination or from the addressee ; and,
- (b) In case of alteration or omission, by the copy of the telegram delivered to the addressee.

FOREIGN TELEGRAMS.

Foreign telegrams are those sent to or received from places beyond the Malayan Telegraph System. Such telegrams are subject to the regulations laid down by the International Convention.

The control of the Government over a telegram shall be deemed to cease at any point where, in the course of the transit of the telegram,

it may be entrusted (and the Government shall have full power so to entrust a telegram) for further transmission by post beyond the Malayan Telegraph System, or by other conveyance or through any system, service or line of telegraph in or beyond the Malayan Telegraph System over which the Government has no control.

The rules for inland telegrams are applicable to foreign telegrams, subject to the exceptions contained in these rules.

1. Each of the contracting Governments reserves to itself the right to suspend the service of International Telegraphy for an indefinite period, if it deem necessary, either generally, or upon certain lines and for certain classes of correspondence.

WRITING AND ACCEPTANCE OF PRIVATE TELEGRAMS.

2. **TEXT.**—In some countries the use of secret language is prohibited. A list of these countries is supplied to every Telegraph Office.

3. Chinese, Tamil and other Indian languages are not available for foreign telegrams in plain language.

4. **SPECIAL INSTRUCTIONS AND CONVENTIONAL ABBREVIATIONS.**—The following special instructions and conventional abbreviations are admitted in foreign telegrams:

=FS = Telegram to follow addressee;

=J = To be delivered during the day only.

5. **ADDRESS.**—The name of the Telegraph Office of destination should be written in the form in which it appears in the first column of the International List of Telegraph Offices and, when so written, it is in all cases, whatever the number of words or letters it contains, charged as one word only.

6. When the name of the office of destination has not yet been published in the official list, the name of the country of destination or of the territorial subdivision of the country is compulsory. This rule applies to the office of origin also.

7. The last word in the address should, as a rule, be the name of the Telegraph Office of destination. This name can be followed only by that of the country or of the territorial subdivision or by both of these. In the latter case the name of the territorial subdivision should follow immediately after that of the Telegraph Office of destination.

8. **TELEGRAPH OFFICES IN THE NEIGHBOURHOOD OF LONDON.**—In telegrams addressed to Telegraph Offices in the neighbourhood of London, the names of which appear in the official list of offices, it is not necessary to add the word London in the address. Telegrams for places in London itself, the names of which do not appear in the official list of offices, cannot be accepted, unless addressed London as the name of the terminal office.

9. **INSUFFICIENT ADDRESS.**—Telegrams, the address of which does not satisfy the conditions laid down in rules 5 and 7, are not accepted. In other cases of insufficient address, the telegram is accepted at the sender's risk.

23

GOVERNMENT TELEGRAMS.

10. The rules relating to the franking of inland telegrams on Government Service do not apply to foreign telegrams, which must be paid for. Telegrams to be sent at the reduced Government rates must be signed by a duly authorised officer.

COUNTING OF WORDS.

11. COUNTING BY OFFICE OF ORIGIN DECISIVE.—The counting of words by the office of origin is decisive. When, however, a telegram contains combinations or alterations of words, contrary to the usage of the language of the country of destination, the office of destination is empowered to recover from the addressee the amount of the undercharge. In this case the telegram is not delivered to the addressee until he has paid the undercharge. If the addressee should decline to pay, a service telegram is sent to the office of origin, explaining the cause of non-delivery and mentioning the amount of the undercharge due. Should the sender duly notified of the reason for non-delivery agree to pay the undercharge, a service telegram is sent to the office of destination, which then delivers the telegram.

CHARGE.

12. The charge for a foreign telegram is 3 cents a word in addition to the charges published by the Eastern Extension Telegraph Company. These charges have the franc as a monetary unit and are fixed quarterly. They may be ascertained on application at a Postal Telegraph Office.

PRECEDENCE.

13. The transmission of foreign telegrams will take place in the following order:

First.—State (or Government telegrams);

Second.—Service telegrams;

Third.—Private telegrams.

ROUTE.

14. If the sender wishes to prescribe the route, he should write the necessary direction on the telegram. Indications as to route are transmitted free.

15. When the sender has prescribed the route to be followed, the Telegraph Offices concerned are bound to carry out his wishes, unless the route named be interrupted, or transmission by it seems likely to involve serious delay, in which case the sender cannot raise any objection to the employment of another route.

16. If the sender specifies no route, the telegram is sent by the best working route, for which sufficient charges have been received.

17. When the sender requests that his telegram be transmitted by telegraph to a particular office which he specifies, and thence by post to destination, the office must carry out his instructions.

24

INTERRUPTION OF TELEGRAPHIC COMMUNICATION.

18. If it is found that a foreign telegram cannot be sent to its destination owing to interruption of the specified route taking place after the telegram was accepted, the sender will be communicated with and asked to pay the additional charges if he wishes his telegram diverted to a more expensive route.

CANCELLATION.

19. AFTER TRANSMISSION.—The paid service advice referred to in rule 75 relating to inland telegrams is, in the case of foreign telegrams transmitted, so far as is practicable in succession to the different offices to which the original telegram was transmitted until it overtakes the latter. If the telegram has been delivered to the addressee, the latter is informed of its cancellation unless the service advice contains instructions to the contrary. If the sender has also paid for a reply by telegraph, the office which cancels the telegram, or which delivers the notice of its cancellation, advises the office of origin of the fact. If no reply has been paid for, this information is communicated to the office of origin by an unpaid letter. If the telegram is cancelled before having reached the office of destination, the charges for the original telegram, for the service advice of cancellation, and for any reply prepaid to such advice in respect of the distance not traversed after deducting the postal charge, if any, will be refunded on application.

DELIVERY AT DESTINATION.

20. Foreign telegrams bearing the special instruction "Jour," or = J =, are not delivered during the night.

URGENT TELEGRAMS.

21. The charge for an urgent foreign telegram is three times the charge for an ordinary telegram of the same length between the same points, and such telegrams take precedence over other private telegrams.

22. Urgent telegrams are not accepted by Cape Colony, Great Britain or India, and are accepted in transit only by Switzerland. Urgent telegrams can be accepted for transmission through Great Britain or India, but during their transmission over the wires of those States they will take rank with ordinary telegrams.

PREPAID REPLIES.

23. If the reply sent contains a less number of words than have been prepaid, the difference will be returned to the sender, if applied for within five months, upon the authority of the office which delivered the original telegram: provided that the amount to be refunded is at least equal to a franc.

ACKNOWLEDGMENT OF RECEIPT.

24. The cost of an acknowledgment of receipt of a foreign telegram by telegraph is equal to that of a telegram of five words, for acknowledgment by post the charge is 16 cents. From countries

25

that admit urgent telegrams, priority of transmission and delivery, may be obtained for an acknowledgment of receipt upon payment of five words at triple rate to the same destination as the original message and writing before the address the instructions = PCD =.

TELEGRAMS TO FOLLOW.

25. Foreign telegrams can be directed to several addresses "To follow," for instance, "= FS =, John Brown, Hotel de Rome, Berlin, ou Romer Frankfurt Main." The sender pays the charge to the first destination, the cost of further transmission is collected on delivery of the telegram. The words "Faire suivre," or the conventional sign = FS =, must be inserted before the address, for which the rate of two words is charged in the former and of one word in the latter case.

26. Replies to telegrams "To follow" and acknowledgments of receipt to them can be obtained, provided the senders undertake to pay any extra charges that may be due if the telegrams are sent beyond the country of destination.

27. No foreign telegrams arriving in the Straits Settlements or the Federated Malay States can be re-addressed to any place not served by the Malayan Telegraph System.

MULTIPLE TELEGRAMS.

28. Multiple telegrams for places in North America are not accepted.

TELEGRAMS TO PLACES BEYOND THE INTERNATIONAL SYSTEM.

29. Telegrams to be sent by post to a country other than that of terminal telegraph station are subject to a fee of 8 cents, those forwarded by registered letter to a fee of 18 cents.

REFUNDS.

30. The rules regarding refunds in connection with foreign telegrams are as follows :

Refunds are made in the following cases—

- (a) The full cost of every telegram which has failed to reach its destination through the fault of the telegraph service ;
- (b) The full cost of every telegram stopped in transmission owing to interruption of the route, if cancelled at the request of the sender ;
- (c) The full cost of every telegram delayed more than 72 hours in the case of private or 36 hours in the case of State or urgent telegrams. The period of closing of offices, when it is the cause of delay, and the time occupied in delivery by special messenger are not counted in calculating the delay ;
- (d) The full cost of every collated telegram in secret language or of every telegram in plain language which has manifestly been unable to fulfil its object in consequence of errors made in transmission, unless the errors have been rectified by paid service advice ;

- (e) The supplementary charges for special services not rendered;
- (f) The full cost of every telegraphic or postal paid service advice, the sending of which has been necessitated by service error;
- (g) The amount deposited for a reply when the addressee has not been able to make use of the voucher, or has refused it, provided the voucher is returned to the office which issued it within three months from the date of issue;
- (h) The charge in respect of the telegraph section not traversed by the telegram when, owing to interruption of a telegraph route, the telegram has been forwarded to its destination by postal or other means. The expense of replacing the original telegraphic route by any other means of transport is, however, deducted from the amount to be refunded;
- (i) The cost, when it amounts to a franc or more, of the word or words omitted in transmission of a telegram, unless corrected by paid service advice;
- (j) Amounts deposited for paid service advices, requesting repetition of a supposed incorrect passage and for replies thereto, if the repetition does not agree with the first transmission, with the reservation, however, that, when some words have been correctly and some incorrectly reproduced in the first telegram, the charge for words in the request for repetition and in the reply relating exclusively to words correctly transmitted originally is not refunded, except when they have been repeated in consequence of their sense being obscured by the mutilated words. No refund will, however, be made when the mutilation has been caused by illegible writing on the part of the sender, or by the message being sent over a telephone;
- (k) The excess, if any, in the value of a voucher for a telegraphic reply, over the actual cost of the telegram paid for by means of the voucher, if such excess amounts to 1 franc;
- (l) The charge for every telegram stopped under rule 4 (inland telegrams);
- (m) The proportion of charge due for a cancelled telegram.

31. In the cases provided for in paragraphs (a), (b), (c), (d), (e), (h), (i) and (j), the refund only applies to the charge of the original telegrams (if lost, cancelled, delayed or mutilated), including any supplementary charges not used, and not to telegrams necessitated or rendered useless by the non-delivery, delay or mutilation of the original telegram.

In case of a partial refund on account of a multiple telegram, the total charge received is divided by the number of copies, the quotient represents the amount of refund for each copy, the telegram itself counting as one copy. When errors of the telegraphic service have been corrected by paid service advices, reimbursement applies only to the charges for such service advices. No refund is made in respect of telegrams to which such advices relate.

32. No reimbursement is made for rectifying telegrams, which, instead of being exchanged from office to office as paid service advices, have been exchanged direct between sender and addressee.

33. Every claim for refund should be made under penalty of rejection within five months from the date of deposit of the telegram. When a telegram, the cost of which is refundable, has been transmitted by countries not conforming to the International Rules, a total refund is only made when such countries forego their respective shares of the charges.

34. Every claim must be made to the original sending administration and be accompanied by documentary evidence—*i.e.*, a written statement from the terminal office or addressee—if the telegram has been delayed or has not been delivered; the copy delivered to the addressee, if the question is one of alteration or omission.

35. The claim may, however, be presented by the addressee to the office of destination which decides whether it should deal with it, or whether it must be forwarded to the sending administration.

The Council meets at 11.30 a.m.

The Secretary to Resident reads the record of the proceedings before the Court of Appeal in the matter of an appeal by one Lai Choon, who, on the 10th October, 1907, was convicted before the Judicial Commissioner, Perak, sitting with Assessors, of the offence of murder, and was sentenced to death. The Court of Appeal dismissed the appeal, but considered that there were sufficient reasons to warrant the commutation by His Highness the Sultan in Council of the death sentence to one of rigorous imprisonment. After discussion, it is decided to commute the death sentence to one of rigorous imprisonment for life.

2. The Secretary to Resident reports that there is a vacancy for a Malay Settlement Officer, and that there are three candidates from the Malay College at Kuala Kangsar: Raja Salim, Muhammad Hashim and Pawang Teh. Raja Salim is eventually selected for recommendation.

4. The Secretary to Resident enquires whether there is any objection to a Malay, who has become a Haji, remaining a member of the Police Force. The Sultan considers that it is not absolutely incumbent upon him to leave the Force, but that, on the whole, it is desirable that he should be employed in some more suitable branch of the Government Service.

The Council adjourns at 12.30 p.m. *sine die*.

THE TELEPHONE RULES, 1907.

IN virtue of the powers vested in him by "The Telegraphs Enactment, 1905," the Resident-General has made the following rules:

1. In these rules—

The word "telephone" means and includes any telegraphic transmitting or receiving instrument used or intended to be used at any office for the purpose of transmitting or receiving spoken messages or communications by means of electricity.

The expression "telephonic message" means a spoken message or communication transmitted by telephone.

The word "office" means and includes any building or part of a building or any place which is telegraphically connected or intended to be connected either permanently or temporarily by a telegraph wire or telegraph wires with some other building, part of a building, or place (whether such buildings, parts of buildings, or places, respectively, be occupied or used by any person solely or jointly with any other person), and in which telephones are or are intended to be used for the purpose of enabling any person to transmit from and receive at such building, part of a building, or place, telephonic messages.

The word "exchange" means and includes any building telegraphically connected or intended to be so connected with two or more offices by telegraph wires and used or intended to be used for the purpose of enabling telephonic messages to be transmitted direct between such offices by means of, or with the aid of, such wires and by appliances placed in the exchange.

The expression "exchange subscriber" means any person with whom the Director, Posts and Telegraphs, has entered into an agreement for the purpose of enabling such subscriber to communicate with other persons through the medium of an exchange.

The expression "exchange system" means an exchange or a group of exchanges (either situate within an exchange area specified by the Director or grouped together round such centre as may be directed by the Director from time to time), together with the lines connecting any such exchange with the offices of subscribers or call offices, or in the case of a group of exchanges connecting such exchanges with each other.

The expression "trunk line" means a telegraph wire used for telephonic communication and connecting an exchange system with another exchange system, together with all posts, cables, tubes, or other works supporting or containing such wire.

The expression "call office" means an office open to the public for the purpose of the transmission therefrom of telephonic messages over an exchange system or over trunk lines.

The expression "on an exchange system," when used in relation to an office, means that such office is telegraphically connected with such exchange system for the purpose of enabling telephonic messages to be transmitted direct between such office and other offices similarly connected with such exchange system.

The expression "caller" means any person attending a call office for the purpose of initiating a telephonic conversation.

The expression "single period" in relation to the use of trunk lines and exchange system means a period of three minutes and the expression "double period" means a period of six minutes.

The word "Director" means the Director, Posts and Telegraphs, Federated Malay States.

2. There shall be charged and paid for the use of a trunk line the sums stated in the schedule attached to these rules.

3. (i) Save with the sanction of the Director, all sums payable for the use of a trunk line shall be prepaid.

(ii) When application has been made for the use of a trunk line for a double period, no part of the fee shall be refunded because the line is in fact used for less than such period.

4. (i) There shall be charged and paid for each connection with an exchange system—

\$60 per annum if line connecting the exchange subscriber's office with the exchange does not exceed two miles in length, and \$15 per annum for every mile or part thereof beyond two miles.

(ii) Where cables or other specially expensive means of communication form part of a subscriber's line, or where the cost of construction is exceptionally heavy, there shall be charged and paid in lieu of or in addition to the above rates, such sums as the Director may fix.

(iii) The following additional annual subscription shall be charged for connection with an exchange circuit:

(a) For a circuit not more than 110 yards in length connecting the subscribers' offices in the same or different premises \$15;

(b) For a circuit exceeding 110 yards in length connecting the subscribers' offices in the same or different premises \$15 plus \$2.50 for each 220 yards or part of 220 yards.

5. The subscription shall be payable annually in advance.

The subscriber shall enter into an agreement with the Director, and when the subscriber's office is within two miles of an exchange the agreement shall be for one year, terminable thereafter by three months' notice. When a subscriber's office is more than two miles from the exchange with which it is telegraphically connected an agreement for five years may be required. Similarly, a five years' agreement may be required in cases where a subscriber's office is, at the request of the subscriber, connected with an exchange other than that with which it would normally be connected.

3

6. (i) There shall be charged and paid for the use of a post office exchange system by callers the following sums—that is to say :

For a single period	...	...	...	...	5 cents
„ double „	...	...	...	...	10 „

(ii) All such charges shall be prepaid.

(iii) When application has been made for the use of the system for a double period, no part of the charge shall be refunded although the system is used for less than such period.

7. (i) No person shall be entitled to use a trunk line, and no caller shall be entitled to use a post office exchange system, continuously for a time exceeding a double period.

(ii) The use of a trunk line or post office exchange system for a double period may be secured either :

(a) By claiming the double period at the commencement of the conversation ; or

(b) By claiming a second single period in the course of, or immediately upon the termination of, the first single period.

8. With regard to the sums to be charged and paid for the use of trunk lines or exchange systems where such use is ineffective, the following rules shall apply :

(a) No fee or sum shall be charged or paid for the use of a trunk line—

(1) When it is ascertained at the post office where the application for use is made that the trunk line cannot be used for the purpose required on account of some fault in a telegraphic line known to the officers working the line or system ;

(2) When it is ascertained that the trunk line is engaged and the call is thereupon cancelled before it has passed over the trunk line or any section thereof, or where from any reason the attention of the exchange subscriber with whom it is desired to communicate cannot be obtained.

(b) When a caller applies for the use of the exchange system on which the call office is situate, and is unable to communicate with the subscriber with whom he desires to communicate either—

(1) Because the attention of the subscriber cannot be gained ;

(2) Because the telegraphic line of such subscriber is faulty ; or

(3) Because the subscriber has previously intimated that his office is to be closed either for a limited period or for the night ;

then the payment shall be returned in full.

9. (i) When application has been made for the use of a trunk line, the period of use shall be calculated from the time when the originating subscriber or caller has been informed by the operator at the originating post office that the connection between the two offices to be placed in communication is complete.

(ii) When application has been made for the use of a trunk line and the person with whom it is desired to communicate is engaged locally and desires to complete his local conversation and asks for a short delay, the period of use shall be calculated from the time when the person with whom it was desired to communicate asks for delay.

10. (i) The Director may in certain cases authorise the acceptance at a post office from exchange subscribers of telephonic messages for further transmission as telegrams and the delivery by telephone to the addressees of telegrams received at a post office.

(ii) When any telephonic message is received at a post office and is further transmitted as a telegram, the Rules made by the Resident-General in relation to telegrams, and the charges payable therefor, shall apply in the same manner as though such telegram had been handed to an officer of the post office or posted.

11. No telephone shall be used for the transmission of any message or communication of an indecent, obscene, or offensive character, whether addressed to an operator or any other person, and the Director may interrupt any conversation, or refuse to give the means of conversation to any person offending against this rule, and shall not in any case be bound to return any sums paid for such message or communication, or by such person.

12. (i) All persons using any trunk line or any exchange system shall observe all such rules as the Director may from time to time make with reference to the order in which his telegraphic lines, apparatus, and post offices shall be used, and generally with reference to the preservation of order and the conduct of business in the post offices and shall conform to the directions of the officers of the post office in charge of the telephonic apparatus of the post office. Provided that no rule of the Director or direction of any officer of the post office shall give any undue preference or priority to any person in connection with the use of the trunk line and exchanges, but this provision shall not affect the right of priority attaching to messages on Government service.

(ii) All arrangements for reckoning the commencement, duration and termination of telephonic conversations shall be under the charge of the Director, and his decision thereon shall be final.

13. The Government is not liable for any loss or damage which may be incurred or sustained by reason or on account of any failure in communication over any trunk line or over any exchange system, whether the same arises through the act or default of any officer of the post office or not, or for any other loss or damage incurred or sustained in connection with telephonic communication.

14. Nothing in these Rules shall alter or affect the terms of any agreement made before the date when these Rules come into force.

Without prejudice to the foregoing Rules the Director may, in any case in which he may consider it just or reasonable to do so, remit any sum made payable under these Rules.

ABSENT :

Raja CHULAN bin Ex-Sultan Abdullah.
 Towkay LEONG FEE.
 Towkay HEAH SWEE LEE.

The Council meets at 11.30 a.m.

1. A draft Enactment to consolidate and amend the law relating to Forests and Forest Produce is laid on the table. The Resident states that action in this respect has been long delayed, but that at length a suitable law has been framed, none of the provisions of which will involve any hardship to Malays. The Enactment is therefore passed, becoming "The Forest Enactment, No. 20 of 1907."

2. "The Customs Regulations Enactment" is passed, No. 21 of 1907.

3. "The Appraisers Enactment," as now amended, is passed, No. 22 of 1907.

4. "The Medical Registration Enactment," "The Deleterious Drugs Enactment" and "The Poisons Enactment" are explained by the Resident to the Council, and passed. They are numbered 23 of 1907, 24 of 1907 and 25 of 1907, respectively.

5. The report of the Committee, consisting of Mr. Osborne, and Towkays Foo Choo Choon and Chung Thye Phin, appointed to examine the provisions of the draft Truck Enactment, is read and considered, and the Resident undertakes to forward it to the Resident-General. His Highness the Sultan expresses his thanks to the Committee for the trouble they have taken in the matter.

6. The petition of Leendert Adrianus van Rijn, Manager of the Netherlands Gutta Percha Company, Limited, Singapore, for a grant of exclusive privileges in respect of an invention for "A Wheel for Motor Cars or other Vehicles manufactured in one entire piece and wholly from Rubber, Gutta Percha or other Elastic Materials" is considered, and a grant of patent rights for 14 years is approved.

7. The petition of the Minerals Separation, Limited, of London, for a grant of exclusive privileges in respect of an invention for "Improvements in or relating to dry Concentration of Ores" is considered, and a grant of patent rights for 14 years is approved.

8. The petition of Messrs. Christie and Lai Tet Loke for a grant of exclusive privileges in respect of an invention for "An Improved Puddler" is again considered. Mr. Osborne is of opinion that the invention claimed is not new, and the Resident therefore promises to consult the Examiner once more upon the subject.

9. Applications for conversion of agricultural lands to mining are sanctioned as follows :

10. A contribution of \$250 from Government is recommended towards the erection of a Mosque for Javanese at Bagan Datoh, and a contribution of \$150 for a new Mosque at Bluker Sambang, Bruas.

11. Certain additions are made to the list of those persons who are privileged to have a free pass on the railway for 1908.

12. The Resident announces that, on the recommendation of Mr. L. C. Brown, Inspector of Coconuts, who reported that bears were doing great damage among the coconut plantations in Lower Perak, a reward of \$20 for the destruction of every bear was included in the list of rewards for the destruction of noxious animals. The list was at the same time revised and published in the *Gazette*. It was discovered, however, that the old list, published in 1900, was a general one applying to all the Federated Malay States, and consequently the new list was cancelled by instructions of the Resident-General, who agreed that the question of revising the scale of rewards for the destruction of noxious animals might be brought before the State Council.

The Datoh Panglima Besar is of opinion that bears are very destructive animals, and the Datoh Stia recommends some reward, as he has heard that three coconut kampongs have recently been entirely ruined by them at

Bagan Datoh. The Datoh Sri Adika Raja remarks that bears are of no use to the community, except to Bengalis who lead them about on a chain in the hope of gain. Another member asks why a bear should be preserved more than a tiger.

The revised scale of rewards is read by the Secretary to Resident and unanimously agreed to.

13. The question of the retirement on pension of Raja Mahdi, Penghulu of Senggang, which, in view of his ill-health, was approved by Council on the 3rd July, 1907, is brought up for discussion, the Resident explaining that, under the existing regulations, he cannot get a pension, as the subsequent report of a Medical Board, ordered by the Resident-General, declared that he was not physically unfit for service. His Highness the Sultan says that he understands the Pensions Regulations, and proceeds to state the case for Raja Mahdi. The Penghulu was evidently not well, said he was unfit to continue in the service, had done good work, and should certainly get some reward from Government. Raja Mahdi was retired at his own request on the grounds of ill-health, supported by a medical certificate, and undoubtedly suffers from asthma. He told His Highness that he did not wish to go on until he was unfit to work properly, and was compulsorily retired for inefficiency.

The Datoh Sri Adika Raja agrees with the view of His Highness, and the Datoh Stia adds that Raja Mahdi came to him and said he was afraid of a permanent break-down if he continued in the service.

The Resident says that this Penghulu, the state of whose health is well known to the majority of the members, has had over 17 years' service, has done excellent work and bears a good character.

It is eventually decided to recommend him for a gratuity, as he cannot receive the pension for which in all respects, except the certificate of two qualified medical officers, he appears to be eligible.

14. Mr. Osborne introduces the question of the cancellation of unworked mining lands. In 1905 a list of mining lands forfeitable for failure to comply with the prescribed conditions was published by Government, and formed the subject of a long discussion at the Council Meeting of the 27th October, 1905. Eventually the general cancellation was postponed until April, 1908. This action of Government is very hard on large miners and capitalists, who have sunk money in the country and brought in machinery. Naturally they must be able to look ahead, so have acquired more land than they can work at present, though they mean to work it later on. Great disquietude exists in Kinta as to whether this general cancellation will be carried out or not. The Government has its rights, which must be protected, but the miners want their rights, too. Under the present regulations the employment of a certain number of coolies on each block is essential. The Resident may, however, under the provisions of Section 16 (iii) (c) of the Mining Enactment, grant exemption from this obligation. He considers it preferable to amend the proviso regarding exemption, so that it should read as follows:

"Provided that the owner of mining blocks, one or more of which are not being worked, may, subject to the approval of the Sultan in Council, be granted exemption, for a period not exceeding three years at a time, from all or any of the obligations in this subsection, provided always that such exemption shall not be granted over an area greater than that represented by the surplus labour force employed on the lands that are being worked by him."

He urges that Council now deals with conversions of agricultural lands to mining, and this would ensure full reports being made to Council, and prevent people holding land as a speculation.

Towkay Chung Thye Phin seconds the resolution, and Towkay Foo Choo Choon thinks it a very good proposition.

As His Highness the Sultan agrees, the Resident undertakes to lay the matter before the Resident-General.

15. Mr. Osborne requests leave to address the Council on the subject of the present depression in the tin industry. The price has fallen rapidly of late, and it is very difficult for miners to make any profit. Unless some Government assistance is forthcoming, many miners will be compelled to shut down, and there will be a large decrease in the output. With tin at its present price the duty works out at 13 per cent. He suggests that the rate be reduced, and the duty fixed at 10 per cent. for the present, with a maximum of 12 per cent. and minimum of 8 per cent. When the sliding scale was fixed, tin was easier to win. The smaller output now, in spite of the higher price, proves that it is more difficult to get. Other countries are in a better position to compete owing to the lower rate of duty. He trusts that Government will give their earnest consideration to this matter.

Towkay Chung Thye Phin points out that the Siamese States have a smaller duty. Towkay Foo Choo Choon thinks that Government should help miners at this crisis, and supports Mr. Osborne.

The Resident promises to represent their views to the Resident-General.

16. With reference to the decision of Council on the 3rd July, 1907, that rent be remitted on land held by "Ketuah Parit" in Krian up to a maximum of 5 acres each, the Resident asks that the matter be reconsidered, as, after consultation with the District Officer, Larut and Krian, he has come to the conclusion that the arrangement is unworkable, and will only lead to trouble and confusion.

It is agreed that the former decision be withdrawn, but that a casual allowance may at the end of each year be recommended for any especially deserving Ketuah.

17. The question of chabut due to the heirs of the late Datoh Panglima Kinta is again brought up. The Secretary to Resident explains the position from the start, and states that the sum of \$3,320.92 is owed by Government to the heirs up to the end of 1906. He recommends that this be paid, and that they be given a piece of mining land to compensate them for the loss of this long established right. It is agreed that 100 acres free of premium be given to the heirs in the Kinta open area.

18. The appointment of Haji Ahmad bin Abdullah as Naib Kathi, Bukit Gantang, in succession to Kulup Hamzah resigned, is approved.

19. The appointment of Raja Ali bin Raja Makah as Assistant Kathi, Parit, is sanctioned.

20. A letter is read from the District Officer, Upper Perak, reporting Samat, Assistant Penghulu, Kenering, for gambling in the farm. The District Officer states that he has severely censured him, and warned him that a repetition will ensure his dismissal. The Council considers that this sufficiently meets the case.

21. The Resident reads a report from the District Officer, Lower Perak, on the conduct of Anjang Abdullah, Penghulu of Pasir Salak and Kampong Gajah. As this Penghulu has been proved unable to exercise a proper control over his mukim, which is a particularly difficult one, it is decided that he change places with Mansur, Penghulu of Pasir Panjang Ulu, each on his own salary—viz., \$480 per annum.

22. Yope Ahmad, Penghulu, Trong, is granted six months' leave, the District Officer, Larut and Krian, having reported him ill and unfit for work. Haji Aminudin, Penghulu, Sungei Tinggi, to act as Penghulu, Trong, in addition to his own duties, drawing a quarter of the available salary.

23. The application of Muhammad Nurdin, Penghulu, Kota Stia (I), to be allowed to retire on the ground of old age, with the pension for which he may be eligible, is sanctioned.

Raja Haji Yahya, Penghulu, Chanderiang, is promoted to Kota Stia on a salary of \$720 per annum; Syed Alwi, Penghulu, Slim, is promoted to Chanderiang (II) on \$480 per annum; and Kulu Ahmad, Assistant Penghulu, Lambor Kiri and Kanan, to Slim (III) on \$240 per annum. Syed Mansur bin Raja Muhammad Ali is selected as Assistant Penghulu, Lambor Kiri and Kanan, on six months' probation, with a salary of \$180 per annum.

24. The application of Muhammad Noh, Penghulu, Bagan Datoh (II), to retire owing to old age is approved, and a gratuity recommended, as he has not completed 10 years' service. Ahmad Tasir, Penghulu, Durien Sabatang (III), is promoted to Bagan Datoh on \$540 per annum, while Ahmad, late Penghulu, Gopeng, is appointed to Durien Sabatang on \$420 per annum.

25. Raja Basah, Penghulu, Bruas (II), who is constantly on the sick list, is given six months' leave. Pandak Brahim, Penghulu, Kurau (II), is transferred to Bruas on his present salary, \$480 per annum, and Abdul Hamid, lately Penghulu, Bruas, is appointed to Kurau on \$600 per annum.

The Council adjourns at 5.15 p.m. *sine die*.
